Acknowledgments

During my research period, I have learnt a lot of topics not only of my research field but also of other areas from my experienced supervisors Dr. Shibaji Panda, associate professor, Department of Mathematics, Bengal Institute of Technology and Dr. Manjusri Basu, professor, Department of Mathematics, University of Kalyani. I am acknowledging with deepest regards and immense gratitude that it would not be possible to submit my thesis without their heartiest help. I am deeply indebted to them for their valuable suggestions, constant encouragement and help throughout the entire period of my research.

I will be thankful for ever to Dr. Subrata Saha for giving endless encouragement and for introducing many unknown matters related to research during initial to final stage of my research. I will be very thankful to Dr. Shib Sankar Sana and Dr. Suresh Kumar Goyal for giving chance to work with them as a co-author. I convey my heartfelt thanks to Dr. Sudipta Sinha, Dr. Debabrata Kumar Ghosh, Mr. Atanu Das, Mr. Monojit Das, Dr. Shambhu Das for the co-operation at different stages during the work.

Finally, I will be mostly thankful to my beloved mother Smt. Kamala Modak, my father Sri Netai Modak and my other family members for their continuous support and tremendous sacrifice for me. I also place on record, my sense of gratitude to one and all, who directly or indirectly, have supported and helped me in this venture.
