R: It is an IT sector company; we will distribute computers to normal people for quite a small amount.

A: How much money should we invest for the company? How are we going to get money for it?
R: We will take bank loan. The amount of money depends on the land. The architecture of the building we are going to build also decides the amount of money.

A: Ok now we are having 100 grounds of land, so additionally we need 200 or 300 yekars to build very big IT sectors. Many rural people are living besides our land so first we have to get permission from government, so we have to discuss with government officials.

R: When shall we go to meet the officials?

A: Before that, I need full details about land and construction, Engineers.

R: That’s not a main problem because civil engineers will give all the details. So that’s not a big deal. We need to register our names to build an IT sector. For that we need a joint bank account and company name.

A: Building a company near slum areas may lead to give jobs to the people from slum.

A: We should provide houses to them. Where shall we build it?

R: Near to our office.

A: So our company may help poor people, we will employ them also if required. It will help them spend money to educate their children. If they get good education we can employ them in high posts of our company.

Nikhil: yeah I know right that very well. But now I am in the end, so I can’t stop it.

Francis: No man! Don’t!... You should not do that; it will spoil your life.

Nikhil: I can’t stop this, just for fun I started, but now It is impossible to stop this habit.

Francis: No man, you should not continue.

Nikhil: No I can’t stop; it is just for my happiness.

Francis: You should stop this

Nikhil: If you want just have one puff please from it.

Francis: No I don’t…

Nikhil: Don’t do show off too much, as if you are so good and I am so bad.

Francis: It is not fair Nikhi. Please… please…Don’t…

Nikhil: No man , I won’t, please understand my situation also.

Francis: If you won’t I will break up my friendship from you.

Nikhil: I can’t leave our friend ship man and I can leave our friendship also. Please understand my situation.

Francis: I am talking about your life, if you stop this I will be with you as a good friend.

Nikhil: Oh then? Am I not your good friend?
Francis: Yes, but unless you stop this I will not talk with you.

Nikhil: Just think about me Franc.

Francis: No… Do what I say!

Nikhil: What? My life is good. I am enjoying my life. What else is needed?

Francis: ok it will affect your future

Nikhil: ok I will stop one or the other day.

Very few mistakes were found in the formation of dialogues. An appropriate concept fan was used in the response. Creativity was good but the response seemed incomplete.

The time I got caught in girl’ eyes

Situation: the time they met, Conversation between Arjun and his Friend.

Friend: Hi arjun , what is up?

Arjun: Nothing is up.(Humour)

Friend: I am asking, how are you?

Arjun: Ya fine, how is your life?

Friend: Comfort means my Shirt and Pant and Shoes (humour)

Arjun: Oh Ok ok. Stop kidding

Friend: Ok. Tell me how is your family and wife?

Arjun: No man, Still I am single.
Friend: I am talking about your girl friend.

Arjun: I don’t have any now.

Friend: Tell me the truth. how is it possible, nothing don’t know.

Friend: Arul prakash?

Arjun: He is an MD in CMC Vellore

Friend: Oh i see. Do you know my problem.

Arjun: I think you have conductive eye problem

Friend: This is not conductive eye problem, this is happened because of girls.

Arjun: How? why?

Friend: It has been started from my childhood
Arjun: What about the stage of your problem

Friend: It started from my childhood, when i saw girl my eyes started automatically.

Arjun: How? tell it in detail. It is quite interesting.

Friend: I met a girl in the train for the first time. My eyes started bulging and became red. I din’t feel any hurt.

Arjun: Then...

Friend: I stopped meeting girls. I think I got caught in the look of her eyes. After that I have never seen any girls.

Arjun: Oh Ok Ok

Friend: What you telling Ok ok.

Arjun: Why don’t you have eye surgery

Friend: No one is accepting me

Arjun: Why what happen

Friend: The thing is that all are lady doctors

Arjun: Hey you are looking ….

Friend: What good looking? i want to go otherwise , women will slap me bye!!!!!

Arjun: (…..).so you got the problem when you looked at the girl.....ookka......ayy.
The thinking was humourous. They put humorous ideas in the conversation without any hesitation. Errors were very few. Few confusion occurred. Though the concept seemed unrelated, dialogues knotted the concept with the given title. The concept fan was used and the design was constructed with care.

**Task-21**

Warden: oh ok that’s fine don’t scare about that , we will pray for that child. Ok?

Few errors were found in the language, coherence was missing in some dialogues and thoughts, and meticulousness of planning was also less. Designing technique was incorporated. Conversation was realistic and appropriate for the concept.
