## Contents

**Chapter 1**

**INTRODUCTION** ................................................................. 01 - 17

1.1 Introduction .................................................................................. 01
1.2 Statement of the Problem ............................................................... 07
1.3 Objectives of the Study ................................................................. 09
1.4 Scope of the Study ...................................................................... 10
1.5 Hypotheses..................................................................................... 10
1.6 Data and Methodology .................................................................. 11
   1.6.1 Sources of Secondary Data ......................................................... 11
   1.6.2 Source of Primary Data ............................................................... 11
   1.6.3 Sampling method ..................................................................... 11
   1.6.4 Instruments for Collecting Primary Data ....................................... 15
   1.6.5 Tools of Analysis of Data .......................................................... 15
1.7 Chapter Scheme ............................................................................. 16
1.8 Limitations of the Study ................................................................. 17

**Chapter 2**

**REVIEW OF LITERATURE** ...................................................... 19 - 78

2.1 Introduction ................................................................................... 19
2.2 Studies on Futures Trading in Indian Context ................................. 20
2.3 Studies on Futures Trading in International Context ....................... 52
2.4 Conclusion .................................................................................... 77

**Chapter 3**

**FUTURES TRADING IN RUBBER — AN OVERVIEW** .............. 79 - 96

3.1 Introduction ................................................................................... 79
   3.1.1 Cotton Futures in India .............................................................. 79
   3.1.2 Futures Trading in Other Commodities ..................................... 80
   3.1.3 Regulations in Futures Market ................................................... 81
   3.1.4 Forward Contract (Regulations) Act 1952 .................................. 82
   3.1.5 Committees Appointed for Revival of Futures Trading ............. 83
   3.1.6 Emergence of National Commodity Exchanges ....................... 84
3.2 Futures Contract ............................................................................ 85
3.3 Rubber Futures Trading in National Multi Commodity Exchanges .... 87
   3.3.1 Impact of Competition among Exchanges ................................. 87
Chapter 4

ECONOMIC FUNCTIONS OF FUTURES MARKET:
AN ANALYSIS ................................................................. 97 - 184

4.1 Introduction ........................................................................ 97

4.2 Objective No.1 ...................................................................... 99
  4.2.1 Hedge Efficiency of Hedge Period by Hedge Period Figures
       for Each Month ................................................................. 102
  4.2.2 Hedging Efficiency for the Period from May 2003 to
       December 2012 on the Basis of Delivery Months ................. 127
  4.2.3 Hedging Efficiency for the Period from May 2003 to
       December 2012 on the Basis of Hedge Periods .................. 129
  4.2.4 Hedging Efficiency for the Period from May 2003 to
       December 2012 on the Basis of Years ............................... 131
  4.2.5 Consolidated Form of Year by Year and Month by Month
       Figures of Effective and Ineffective Hedges for the Period
       from May 2003 to December 2012 ...................................... 133

4.3 Objective No. 2 .................................................................. 135
  4.3.1 Elasticity of Expectation of Hedge Period by Hedge Period
       Figures for Each Month .................................................... 136
  4.3.2 Elasticity of Expectation for the Period from May 2003 to
       December 2012 on the Basis of Delivery Months ............... 149
  4.3.3 Elasticity of Expectation for the Period from May 2003 to
       December 2012 on the Basis of Hedge Periods ................ 150
  4.3.4 Elasticity of Expectation for the Period from May 2003 to
       December 2012 on the Basis of Years ............................. 151
  4.3.5 Consolidated Form of Year by Year and Month by Month
       Figures of Stabilizing Effects and Destabilizing Effects for the
       Period from May 2003 to December 2012 .......................... 152

4.4 Objective No.3 .................................................................. 154
  4.4.1 Index of Bias of Hedge Period by Hedge Period Figures for
       Each Month ................................................................. 156
  4.4.2 Index of Bias for the Period from May 2003 to December 2012
       on the Basis of Delivery Months ..................................... 161
4.4.3 Index of Bias for the Period from May 2003 to December 2012
on the Basis of Hedge Periods ..................................................... 162
4.4.4 Index of bias for the Period from May 2003 to December 2012
on the Basis of Years ................................................................... 162
4.5 Objective No. 4 ................................................................. 163
4.6 Objective No. 5 ................................................................. 167
  4.6.1 Augmented Dickey Fuller Test (ADF) ............................. 169
  4.6.2 Lag Selection. ................................................................. 178
  4.6.3 Granger Causality Test ...................................................... 178
  4.6.4 Johansen Co-integration Test ............................................ 180
4.7 Conclusion ........................................................................... 182

Chapter 5
AWARENESS AND PERCEPTION OF MARKET
PARTICIPANTS: AN ANALYSIS ................................................... 185 - 255
5.1 Introduction ......................................................................... 185
5.2 Profile of the Futures Market Participants .......................... 185
  5.2.1 Type of Product ............................................................... 186
  5.2.2 Deferment of the Sales/Purchase ..................................... 186
  5.2.3 Sales .............................................................................. 187
  5.2.4 Purchase ........................................................................ 188
  5.2.5 Turnover/ Consumption .................................................. 188
  5.2.6 District ......................................................................... 190
  5.2.7 Education ..................................................................... 190
  5.2.8 Profession ..................................................................... 191
  5.2.9 Category of Ownership ................................................... 191
  5.2.10 Area ........................................................................... 192
5.3 Spot price Information Sources and Motivation for Sale/ Purchase .... 193
  5.3.1 Price Information Sources of Market Participants .......... 193
  5.3.2 Motivation for Sale by Market Participants .................... 196
  5.3.3 Motivation for Purchase by Manufacturers ..................... 197
5.4 Awareness of Market Participants about Spot and Futures Market ...... 198
  5.4.1 Ensuring Target Price ..................................................... 198
  5.4.2 Commodity Exchange .................................................... 199
  5.4.3 Lot Size of Rubber Futures Contract ............................... 200
  5.4.4 Basis Variety ................................................................. 201
  5.4.5 Margin Money ............................................................... 202
  5.4.6 Awareness about Usage of Futures Trading ..................... 202
  5.4.7 Participation in the Futures Market ................................. 203
  5.4.8 Hedgers ................................................................. 204
  5.4.9 Speculators ............................................................... 205
5.4.10 Loss/Profit in the Futures Market ................................................ 206
5.4.11 Delivery from and to the Warehouse ........................................... 207

5.5 Objective No. 6 ............................................................................. 208

5.6 Hypothesis Testing ........................................................................ 209

5.6.1 Awareness and Perception of Rubber Growers with respect to Participation ................................................ 210
5.6.2 Awareness and Perception of Growers with respect to Compensation of Loss from Futures Market ........................................ 213
5.6.3 Awareness and Perception of Growers with respect to Educational Qualification ................................................... 214
5.6.4 Awareness and Perception of Growers with respect to Profession ........................................................... 216
5.6.5 Awareness and Perception of Growers with respect to Deferment of Sales ................................................... 218
5.6.6 Awareness and Perception of Growers vis-a-vis area of Plantation ........................................................... 220
5.6.7 Awareness and Perception of Growers and the Category of Ownership ........................................................................ 222
5.6.8 Awareness and Perception of Participant and Non-Participant Dealers ........................................................................ 224
5.6.9 Awareness and Perception of Hedger and Non-Hedger Dealers ........................................................................ 227
5.6.10 Awareness and Perception of Speculator and Non-Speculator Dealers ........................................................................ 228
5.6.11 Awareness and Perception of Dealers with respect to Compensation of Loss from Futures Market ........................................ 230
5.6.12 Awareness and Perception of Dealers vis-a-vis Educational Qualification ........................................................... 232
5.6.13 Awareness and Perception of Dealers with respect to Deferment of sales ........................................................... 234
5.6.14 Awareness and Perception of Dealers with respect to Turnover ........................................................... 236
5.6.15 Awareness and Perception of Participant and Non-Participant Rubber Product Manufacturers ........................................................... 238
5.6.16 Awareness and Perception of Manufacturers on the Basis of Consumption Category ........................................................... 241
5.6.17 Awareness and Perception of Manufacturers with respect to Ownership Category ........................................................... 243
5.6.18 Awareness and Perception of Manufacturers with respect to Deferment of Purchase ........................................................... 244
5.6.19 Awareness and Perception of Rubber Marketing Cooperative Societies and RPS ........................................................... 246
5.6.20 Awareness and Perception of Participant and Non-Participant Rubber Marketing Co-operative Societies & RPS ............................................................. 248
5.6.21 Awareness and Perception of Rubber Marketing Co-Operative Societies & RPS with respect to Deferment of Sales ................................................................. 251
5.6.22 Awareness and Perception of Rubber Marketing Co-Operative Societies & RPS with respect to Turnover ................................. 253
5.7 Conclusion ..................................................................................... 255

Chapter 6
SUMMARY OF FINDINGS, SUGGESTIONS AND CONCLUSION .......257 - 272
6.1 Introduction .................................................................................. 257
6.2 Findings of the Study ..................................................................... 258
6.2.1 Objective No. 1. Hedging Efficiency ............................................. 258
6.2.2 Objective No. 2. Elasticity of Expectation .................................... 260
6.2.3 Objective No. 3. Index of Bias .................................................... 262
6.2.4 Objective No. 4. Volatility of Spot Price of Rubber ..................... 264
6.2.5 Objective No. 5. Testing whether Futures Trading in Rubber Helps in Price Discovery or Not ......................................................... 264
6.2.6 Objective No. 6. The Awareness and Perception of Rubber Futures Market Participants viz. (i) Rubber Growers, (ii) Rubber Dealers, (iii) Rubber Product Manufacturers (iv) Rubber Producers’ Societies and Rubber Marketing Co-operative Societies .............................................. 265
6.3 Suggestions .................................................................................. 268
6.4 Scope for Further Research .......................................................... 271
6.5 Conclusion ................................................................................. 272

Bibliography ..................................................................................... 273 - 293
Appendix ........................................................................................... i – xv
1. Questionnaire .............................................................................. i – xiv
2. Publications by the Researcher ....................................................... xv
List of Tables

Table 3.1 Spot and futures prices of rubber at NMCE......................... 88
Table 3.2 Production, Import, Export and Consumption of natural and synthetic rubber from 2002-03 to 2009-10 (Tonnes).......... 89
Table 3.3 Production, consumption, domestic price and international prices of rubber......................................................... 90
Table 4.1 A snapshot of the simulated hedges made for January 2012...... 101
Table 4.2 Number of effective and ineffective hedges of January delivery contracts................................................................. 104
Table 4.3 Number of effective and ineffective hedges of February delivery contracts................................................................. 106
Table 4.4 Number of effective and ineffective hedges of March delivery contracts................................................................. 108
Table 4.5 Number of effective and ineffective hedges of April delivery contract................................................................. 110
Table 4.6 Number of effective and ineffective hedges of May delivery contracts................................................................. 112
Table 4.7 Number of effective and ineffective hedges of June delivery contracts................................................................. 114
Table 4.8 Number of effective and ineffective hedges of July delivery contracts................................................................. 116
Table 4.9 Number of effective and ineffective hedges of August delivery contracts................................................................. 118
Table 4.10 Number of effective and ineffective hedges of September delivery contracts................................................................. 120
Table 4.11 Number of effective and ineffective hedges of October delivery contracts................................................................. 122
Table 4.12 Number of effective and ineffective hedges of November delivery contracts................................................................. 124
Table 4.13 Number of effective and ineffective hedges of December delivery contracts................................................................. 126
Table 4.14 Number of effective and ineffective hedges for the period from May 2003 to December 2012 on the basis of delivery months................................................................. 128
