ACKNOWLEDGMENTS

It gives me an immense pleasure to express my deep sense of gratitude and thankfulness to Dr. G. N. Chaudhari, Department of Chemistry, J. D. Patil Science College, Daryapur-Amravati, for his eminent guidance and valuable constructive advice that helped me a lot all through my study, leading this investigation to a success for accomplishment. His constant encouragements and interest only has made it possible for me to complete the task to the best of my ability and his moral support can not be fully expressed in words. He has instilled in me the confidence to work independently.

My special thanks are due to Dr. (Mrs) S. V. Manorama, Scientist, Materials Science Group, IICT, Hyderabad, for reading the entire manuscript and suggestions for improving the same, and also for her moral support.

I am thankful to Dr. V. S. Sapkal, Prof. & Head, Department of Chemical Technology, Amravati University Amravati, for extending all the available facilities for my work. I am extremely thankful to them all.

I feel extreme pleasure in expressing my earnest thanks and gratitude to Prof. R. S. Lendhe, Principal, College of Engineering & Technology, Amravati, for his valuable suggestions for improving the same, and also for his moral support.

I express my deepest sense of gratitude towards Mr. Jagdishji Gupta (MLA), Prof. Ravindra Kudw, Prof. D. T. Ingole, Dr. K. N. Patil, Dr. V. S. Jamode, Dr. S. G. Bhadange, Dr. A. S. Aswar, Dr. Ghatol, Dr. P. R. Raiput, Dr. M. L. Narwade, Prof. K. R. Gawande and Dr. A. G. Doshi for their constant encouragement.

I gratefully acknowledge the help rendered by Prof. R. S. Kale & Prof. Sanjay Wankhade for his help during my research work.

My heartful thanks to Mr. Sudhir Dapurkar, Research student, IIT, Pawai (Mumbai), Prof. R. V. Rothkar, Prof. G. P. Dhot, Mr. Rajesh Pande, Mr. Prasanna Rathi Mr. Pravin Bhartiya and Prof. P. R. Malasane for their help, patience and moral support at every instant without which this work would not have come to this stage.

I am thankful to all my colleagues Dr. N. R. Thakare, Prof. S.S. Patil, Prof. U. S. Khandekar and Mr. S.M. Chore for creating an academic conducive atmosphere during the period.

Most intimately, I am deeply indebted to my mother, beloved brother Manoj and elder sisters Anita and Sunila for their patience and encouragement during the hours of my depression. There are no words through which I can express my gratefulness to them.

I also express my thanks to IICT Hyderabad, JNARDDC Nagpur, RsIC Nagpur, IIT Pawai and Amravati University, Amravati for having rendered invaluable help in completing spectral analysis.

I thank Mr. Nitin Thakare & Mr. Sunil Korde for doing a computer typesetting job for my thesis. Finally, I gratefully acknowledge the financial support for this work was partially supported by the Minor Research Project Sanctioned by the University Grant Commission (Grant No. FN-23-223-2601).

My apologies to all those who have helped me but are not acknowledged.

Pramod R. Padole
