ACKNOWLEDGEMENT

The investigator wishes to submit my humble Pranams to SWAMI ATHMARAMANANTHAJI MAHARAJ, the Secretary, Sri Ramakrishna Mission Vidyalaya, Coimbatore for his blessings, and permission without which, the study would not have fruitified.

The investigator expresses his deep feelings of gratitude to his guide Dr. V. DHANASEKARAN, Sri Ramakrishna Mission Vidyalaya College of Education, Coimbatore for all the inspiration and the valuable guidance rendered during the entire course of study.

The investigator is indebted to Dr. N. MUTHAIHAH, Principal, Sri Ramakrishna Mission Vidyalaya College of Education, Coimbatore for rendering his valuable administrative help whenever needed.

The investigator wishes to express his profound thanks to Dr. N. PUGALENTHI, Reader in Biological Science Department, for his suggestions and motivation to complete this task successfully.

The investigator is very much thankful to all staff members working in Sri Ramakrishna Mission Vidyalaya College of Education, Coimbatore who provided valuable help to complete the thesis. The investigator expresses his gratitude to the librarians of Bharathiyar University, Madurai Kamaraj University, Madras University, Sri Ramakrishna Mission Vidyalaya College of Education, Coimbatore and Government College of Education for Women, Coimbatore for their kind help to use the library resources for his research work.
The investigator also wishes to thank the lecturers serving in District Institute of Education and Training, Thirumoorthi Nagar for all their academic assistance whenever needed.

The investigator wishes to express his sincere thanks to all the heads and B.T. teachers of various schools in Coimbatore District for their valuable help in conducting the tests.

The investigator would like to thank his friends and family members for extending their moral support to complete this project.

S. RAJENDRAN
