ACKNOWLEDGEMENT

Some persons and institutions have made very significant and memorable contribution to this small piece of work. So, it is my duty to express thanks for their kind help, guidance and affection.

At the outset, I would like to express my gratitude to Dr. Hardik Vachhrajani, Ph.D Supervisor, Hemchandracharya North Gujarat University and Associate Professor, Amrita School of Business, Amrita University for providing me invaluable guidance and constant encouragement in completing my research. Despite his very busy schedule, he devoted huge amount of his invaluable time to resolve all types of problems that came in the way of my research work. He helped me at every stage of my work by solving the academic problems, providing new ideas when I was stuck up and by always “there”. Because of Dr. Hardik Vachhrajani’s guidance only, it becomes possible for me to get financial support (travel funding) from International Statistical Institute to present the research paper at ISI-RSC 2014 Kuala Lumpur, Malaysia. In fact, it is impossible for me to express my gratitude in words as his whole family treated me as a family member.

I am extremely thankful to the Members and Staff of Gujarat Industries Power Company Limited (GIPCL) and Gujarat State Electricity Corporation Limited (GSECL) providing me the required support.

I take this opportunity to thanks Dr. B.A. Prajapati, HOD, Sevantilal Kantilal School of Business Management and Staff of Hemchandracharya North Gujarat University, Patan for their kind support.

My parents have sacrificed so much for educating me. They made every possible effort to help me reach this position. I am extremely grateful to my family members, my Grand Father Sh. Arjan Singh, Grand Mother (Late) Smt. Jangeer Kaur, Father Sh. Harnek Singh, Mother Smt Charanjeet Kaur and Elder Brother Inderpal Singh.

My wife, Ms. Jasleen Kaur has also made great contribution in completing this research work by providing me positive environment at home. She has suffered very much in keeping me free from the domestic responsibilities. My son, Bismaad Singh provided me a cheerful diversion from my work. My father-in law Sh. Kanwaljeet Singh and mother-in-law Smt. Manjeet Kaur provided me lot of encouragement to continue this work.
Apart from these, there are many others who helped me in my research work. I am thankful to all of them. If in spite of help and guidance of so many people, there are lacuna and lapses, these are entirely mine.

(Amritpal Singh Dhillon)
