Bibliography

53. Henning Sanneck, Michael Berger and Bernhard Bauer, ‘Applications of Agent Technology to Next Generation Wireless/Mobile Networks’, Second

89. Ling-Jyh Chen, Tony Sun, Benny Chen, Venkatesh Rajendran and Mario Gerla ‘A Smart Decision Model for Vertical Handoff’ Department of Computer Science, University of California, LosAgeles and Department of Computer Engineering University of California, Santa Cruz.

Distributed Processing Techniques and Applications’ (PDPTA 97), June 1997, pp. 1132-1140.

112. Monique Calisti, Thomas Lozza and Dominic Greenwood ‘An Agent-Based Middleware for adaptive Roaming in Wireless Networks’ International workshop for Agents for Ubiquitous Computing workshop AAMAS, July 2004, New York, USA

121. N. Sklavos & K. Touliou ‘Power Consumption is Wireless Networks: Techniques & Optimizations’ The IEEE Region 8, EUROCON 2007,
International Conference on ‘Computer as a Tool’ (IEEE EUROCON'07), Warsaw, Poland, September 2007, pp. 2154-2157.

152. S. Krause, T. Magedanz ‘Mobile Service Agents enabling ‘Intelligence on Demand’ in Telecommunications’, Published in Global Telecommunication Conference (GLOBECOM’96), vol. 1, 1996, pp. 78-84.

177. V.R. Lesser, ‘Cooperative Multiagent Systems: A Personal View of the State of Art’. Published in IEEE Transactions on Knowledge and Data Engineering, Vol. 11, Issue 1, Jan-Feb 1999, pp. 133-142.
