ACKNOWLEDGEMENT

Words are inadequate to express my deep sense of gratitude and indebtedness to Dr. M.R. Gopinathan Nair, Reader, School of Chemical Sciences for his excellent guidance, constant encouragement and generous help in all stages of this work.

I acknowledge with gratitude the encouragement and help extended by Prof. V. N. Rajasekharan Pillai, formerly Director, Dr. M. Padmanabhan, Reader-in-charge and all other faculty members of School of chemical Sciences, Mahatma Gandhi University.

I am grateful to the following person for providing facilities for analytical measurements. Mr. Nikhilesh Choudhary, Prof. N. Roy Choudhari and Prof. Nandi of IACS Calcutta; Prof. Mahendra K. Mahanti, Dept. of chemistry, NEHU, Shillong; The Director, RSIC, Nagpur University, Dr. N.M. Mathew, Director and Dr. (Mrs). Geetha Kumari, Scientific Assistant, Rubber Research Institute of India, Kottayam; Prof. D.K. Tripathy, Director, Rubber Technology Centre, IIT, Kharagpur.

I am grateful to Dr. (Fr). C.J. Paul, Dr. George V. Thomas, Mr. R. Chandrasekharan Nair, Mr. Rajesh C, Dr. Lissy mol P.P, Dr. Jayamol, Dr. C. Arunan, George Mathew, Sreekala, Sony, Biju P. K, Madhu N.T, Preethy N, Micky, Gopakumar, Rani, Raichel, Reji, Mrs. Annamma Kurian and all other research scholars and non teaching staff members of the School of Chemical Sciences for their co-operation.

I wish to thank Indu and other inmates of the University hostel for their co-operation.

The constant encouragement by my brother Hari, sister Maya, Lizzy, Reji and Valsala teacher is acknowledged.

I am grateful to Mahatma Gandhi University for the J.R.F awarded to me. My sincere thanks are extended to Ajith Kumar and others of Sun the computers, Ettumanoor, for the excellent word processing and photocopying of this work.

JAYASHREE V
