ACKNOWLEDGEMENT

"THANK YOU O LORD FOR EVERYTHING
AS NOTHING IS FEASIBLE WITHOUT YOUR WILL
THY WORD IS A LAMP INTO MY FEET
AND A LIGHT INTO MY PATH"

This is perhaps the easiest chapter that I have to write. A precious debt as that of learning is the only debt that is difficult to repay, except perhaps through gratitude. It will be simple to name all the people who helped me to get this done, but it will be tough to thank them enough. My acknowledgements are many times more than that what I am expressing here.

With a deep sense of gratitude, first of all I would like to thank Dr. S.S. Kanwar Prof. & Head, Chairman of my advisory committee for his kind support, scholarly guidance, salubrious criticism, liberal attitude, whole hearted help and constant encouragement during my study period. His remarkable ability to change the attitude from "Can I" to "I can" shall be a major guiding force all through my life. To him, I owe a lot more that I can express.

I feel privileged to express my deep sense of regards to my esteemed member of advisory committee Dr. M.K. Gupta, Assistant Professor (Selection Grade), Deptt. of Microbiology, Dr. S.P. Sharma, Prof., Deptt. Of Soil Science and Director of Research, CSK HPKV, Palampur, Dr. T.K. Bhatt, Principal Scientist, IVRI and Dr. Rajeev Rathour, Assistant Scientist, Department of AGRL Biotechnology for their valuable suggestions, probing questions, parental attitude, moral support and concrete suggestions throughout the entire course of this investigation.

I feel my utmost duty to express my sincere thanks to Dean Postgraduate Studies, and his office for providing academic assistance and other facilities to carry out the present study.

I would also like to thanks Dr. Sunil Pabbi, Senior Scientist, NCBGA, IARI, New Delhi, Dr. Kamlesh Singh, Prof. & Head, Deptt. Of Stat. And Physics, Dr. Manoj Bhargava, Prof., Deptt. Of Stat. And Physics, Mr. Krishna (Research Scholar) NCBGA, IARI, New Delhi, Mr. Anil Thakur (Research Scholar), IMTECH, Chandigarh, Mr. Surjeet Patial (Lab. Technician), IMTECH, Chandigarh, Mr. Vivek Sharma (Research Scholar), IHB, Palampur, C.S. Prabhakar (Research Scholar), CSK HPKV, Palampur who helped me in every tricky situation and made my work possible.

I am grateful to all the supporting staff of Department of Microbiology, Sh. Roshan Lal, Sh. Jairaj, Sh. Rajmal, Smt. Usha, Manohar Ji, Maya Ji who helped me in every way they can. I am also very thankful to Sh. Shakti Chaud, Lab. Assit. and Manohar Lal, Lab. Helper in the Department of Chemistry & Biochemistry for their timely help.

All these words will be futile and less meaningful, if I forget to acknowledge the nice company and untrining help of my friends, who inspired me to complete this investigation. Among the galaxy of friends, I wish to express my heartfelt thanks to Sammer, Anil, Gaurav, Chanderpal, Rishi, Manoj, Pradeep, Ajay, Rohit, Shobit, Diksha, Aarti, Aditi, Kanika, Natasha, Sohini, Ruchi, Ankita, Anamika, Sheetal, Late Mr. Rakesh, Himani, Ruchi, Monu, Reetika, Mohinder, Keshani, Geetanjali, Madhu, Sapna, Himankshi and Rajni for their valuable suggestions, moral encouragement, kind support, and affection which led to accomplish this work with earnest efforts. They always stay by my side to lend a helping hand and always provided me a constant source of inspiration, affection and cooperation.

Every effort is motivated by ambitions and all ambitions have inspiration behind. I owe this pride place to my parents who always believed in giving strong educational wings to their son. I am highly thankful to my elder brother (Vijay Samkoria) and Bhabhi Ji (Deepti Samkoria) for being a constant source of encouragement all through my research period. Their selfless persuasion, sacrifice, heartfelt blessings and firm faith have made this manuscript a feeble recompense to translate their dreams into reality. They have done a lot for me. This thesis is a result of their blessings and best wishes.
I AM THANKFUL TO MR. AJAY WALIA FOR GIVING FINAL TOUCH TO THIS MANUSCRIPT.
I WOULD LIKE TO THANKS ALL THOSE WHO CANNOT FIND A SEPARATE NAME BUT HELPED
ME DIRECTLY OR INDIRECTLY IN THE PRESENT INVESTIGATION.
IN THE END, I WOULD LIKE TO THANK “ALMIGHTY” GOD FOR HIS BLESSINGS AND FOR
MAKING MY WORK A SUCCESS AND FOR GETTING ME THROUGH THIS PHASE OF MY LIFE.

PLACE: PALAMPUR
DATE: THE    JULY, 2010        (AJAY KUMAR)
