ACKNOWLEDGEMENT

First, all praises be to Lord Ganesh, The Exalted, Most Gracious and Most Merciful. I express my profound sense of gratitude to my respected supervisor, Dr. S. N. Thore for his inspiration, constant guidance, valuable suggestions, unparalleled encouragement and support made throughout the course of my study. He always provided an endless source of ideas and motivation, and being approachable. He has allowed me the freedom to develop my own areas of interest within the scope of this project, and made the research more enjoyable rather than daunting.

It is my privilege to thank Dr. M. S. Shingare, Head, Dept. of Chemistry, for his constant encouragement and ardent interest shown during the progress of the work. I sincerely acknowledge Dr. Maheh Patel, Director and Dr. Bharat Trivedi, Chief Scientific Officer, Wockhardt Research Centre, Aurangabad for giving me an opportunity to do research work and providing necessary facilities. I owe tremendous debt to Dr. P. K. Deshpande, Head, Drug Discovery Division, and Dr. Milind Shindkhedkar for introducing me to the fascinating field of research.

I wish to render heartfelt thanks to Dr. Rajesh Loriya, Dr. Lavkumar Uppalla and Dr. Satish Bhavsar for their timely help and never ending encouragement. I wish to acknowledge the support and co-operation of my friends, Sanjay Dabhade, Rajesh Bora, Nagannath Kokare, Deepak Dekhane, Vinod Gaikwad and Swapnil Sonar for their help and encouragement.

The work would not have been complete without the help provided by the analytical groups. My sincere thanks to Shivaji, Chandraprakash, Ganesh, and Safa for recording the NMR, Mass and IR spectra. I am thankful to Mr. Sachin Deshmukh for his valuable support in managing the computer related issues during the thesis preparation.

Special thanks to my friend, Santosh Diwakar, for your sincere friendship, immense help and everything you have done for me during this journey.

I am deeply grateful to my beloved Aai and Baba, who have contributed and sacrificed a lot for me to accomplish this stage and will always remain a sole source of inspiration in my life to achieve higher goals. Most importantly, the deepest thanks from the bottom of my heart should be dedicated to my brother Babasaheb and my babhi Anjali for their great support and constant encouragement.

I also thank my sisters, brothers in-law and parents in-law for their prayers, love and support without whose good wishes I could not have completed this work.
Words are not enough to express my deep admiration to my spouse Priyanka, for all the sacrifice she has made regarding my entire program. However, for her trust and belief in me and above all, encouragement and understanding, it would have been difficult if not impossible, to undertake the program successfully. My love also goes to my son Parth for giving me pleasure and fun in spare time.

SHIVAJI S. PAWAR
