ACKNOWLEDGEMENTS

I thank the almighty Father, Jesus Christ and the Holy Spirit, the almighty Trinity Lord who has created the Heaven and the Earth for making this happen. As it was done by your Grace, my Lord and Not by My Pride!
["It is right to give him Thanks and Praise" - Col 1:3]

I also thank Mother Mary, Our Lady of Health, Vailankanti, Please pray for us Mother.

I thank my Nation, My family and Friends for the support and encouragement.

This dissertation was only possible through the support of many people who helped me in many aspects.

Firstly, Heartily, I express my deep sense of gratitude and indebtedness to my teacher, Research supervisor Prof. D.V.R. Sai Gopal, Head, Department of Virology, Sri Venkateswara University, Tirupati for encouraging me in research, providing me a platform for research and his personal care. My immense gratitude for his special care and concern and it is beyond words.

I express my heartfelt thanks to Prof. Pradip Dasgupta, Head, Department of Post Molecular Biology, University of Delhi (South Campus), New Delhi for providing me laboratory facilities for performing most of my initial and later batch work. It was only possible with his kindness, care & In words cannot be written.

During my journey of research, my thanks is to be given to all the teaching Faculty members of the department of Virology as they have given me some important suggestions personally especially Dr. Hema for her valuable comments, Dr. Charitha Devi for her inspiring discussions and Dr. G. Narasimha for his experience sharing.

I wish to sincere thanks to my teacher Prof. P. Sreenivasulu (Retd.), Department of Virology for his precious encouragement in my Post graduation and also during research in the Department and also for providing antiserum of Potyviruses.
My thanks are also due to them who provided antisera of different potyviruses.

I would like to convey my sincere acknowledgements to Dr. Bikash Mandal, IARI, New Delhi for providing antisera of PRSV-P and for Electron Microscopy of Potyvirus samples respectively.

I am grateful to Dr. D. Sreenivasulu, Professor, Department of Microbiology, S. V. Veterinary University, Tirupati for allowing me to use equipments and liquid nitrogen in their laboratory.

I express my sincere thanks to Prof. K. V. Seshadri (Red.), Associate Dean, College of Horticulture, A.P. Horticultural University for helping me in field screening of virus isolates during my Ph.D programme.

I am very much thankful to my friends and PG classmates Poorna, Sunil, Kesava Raj, Ramakrishna for their encouragement during the period of my research work. When I lost my hope, they helped me in retaining it in my life.

My seniors and colleagues in the Department of Virology are of immense help to me and I thank Dr. T. M. V. Prasanna, Dr. Sarovar, Dr. Sreenivasulu, Dr. Subba Reddy, Dr. Ramesh, Dr. B. Muni Swamy (Statistics), Padmavathi, K.P. Sreenivas, Vidya, Naresh, Tharanath, Papaiah, Kumar, Radha, Sangamithra, Sunil, Harsha, Kiran, Chinna Praveen, Soumya, Lakshmi, Usha, Sumathi, Sreekanth, Praveen, Reddi pradeep, Janardhan, Somasekhar, all microbiology teaching assistants and all other colleagues.

I extend my thanks to Raju (Riaz), Chandra, Chinnabba, Jai Singh, Somu, Janardhan, Mrs. Chandrakala, C. V. S. Sarma, K. V. Rama Raju, Suresh and and all other non-teaching staff for their dedicated assistance during this study in the Department of Virology.

My thanks are due to my co-researchers in other Departments Vinay, Krishna kishore, EGTV Kumar (Biochemistry), Anand (Biotechnology), Karthik, Dasaiiah (Microbiology, Veterinary College), Sankar (Zoology), Uday Bhaskar (Physics), Krishnaiah, Prasad, Sreekanth, Bhupendra, Pratap, Chandu (Anthropology), Kishore (Botany), Prabhavathi (Microbiology, ANU, Guntur), Dr. Lazar (Psychology) for their help and cooperation during this study.

My special thanks to all my friends and colleagues from UDSC, New Delhi, Arunima, Vijay, Tamil Arasan, Michael, Shankar, Cecil
Antony, Vikram ratnu, Venkat, Amanjyoth singh, Anand, Trilok, Nazia, Amardeep, Fauzia, Swetha, Ravikanth, Dr. Ujjani Dasgupta.

I cherish the happy movements with my friends and well wishers Haripriya Srinivas, Haripriya Tonpe, Prashanthi, Kiran D, Subbaiah, Anji, Manjunath GH, Job Prashanth, Gopi srinivas, Sunil, Venkata subbaiah, Hari Kishore, Ramesh (Geology), John Mark, Ravi for their moral support in completion of this thesis. In times I was in critical situation, they supported me so much.

I am so indebted to Dr. Madan Mohan Rao, Asst. Prof. RIMS, Kadapa for extending his medical help to my illness and help through my research. I am also thankful to MORGM, Kadapa for their prayers.

I thank Bros Scientifics for their supply of research requirements, especially Mr. Madhu, Mr. Chandra, Hari, Khaleel.

I thank all those authors of whom a reference is made in this thesis. I am also grateful to Sri Venkateswara University, Tirupati for giving me an opportunity and providing me good facilities to complete my post-graduation and Ph.D.

Words are not enough to express my deep felt gratitude to my family members. I thank my beloved father Mr. A.M. Paul Devraj & mother Mrs. A. Mary Theresa and my well wishers for their affection, moral support and cheerful encouragement during my entire studies. I am also so much thankful to my beloved best ha& my wife Mrs. A.M. Mary Sirisha for bearing with me, adjusting everything even in my absence. However, there is no dedication of thesis as per university guidelines, but I love my Daughter, the only greatest Joy in my lovely life A.M. Mary Angelica (Sweetu) and I will express my love to her as she was with her mother bearing things even my absence at my home.

I would also like to mention about the people who said no to me because it would have not been possible without them. Their rejection made me stubborn to carry out the research.

Human brain can forget many things even if they are important, any omission in this very...very brief acknowledgement does not imply ingratitude. Please accept apologies for forgetting so...
