5.1.14 Forms of marriage and participation of women in crop farming in isolated villages

5.1.15 Forms of marriage and participation of women in crop farming in less isolated villages

5.1.16 Distance from natal family and women's participation in crop farming in isolated villages

5.1.17 Distance from natal family and women's participation in crop farming in less isolated villages

5.1.18 Level of female participation in crop farming by distance and marriage form in isolated villages.

5.1.19 Level of female work participation by distance and form of marriage in less isolated villages

5.1.20 Female work participation by form of marriage and distance from natal family in isolated villages

5.1.21 Female work participation by form of marriage and distance from natal family in less isolated villages

5.1.22 Mean participation score by marriage and distance in the two samples

5.2.1 Distribution of households by possession of livestock in isolated and less isolated villages

5.2.2 Women in animal care in isolated and less isolated villages

5.2.3 Women in animal care by place of dwelling in isolated villages

5.2.4 Women in animal care by place of dwelling in less isolated villages

5.2.5 Family structure and participation in animal care in isolated villages
5.2.6 Family structure and participation in animal care in less isolated villages

5.2.7 Farm size and participation in animal husbandry in isolated villages

5.2.8 Farm size and participation in animal husbandry in less isolated villages

5.2.9 Participation of women in animal husbandry by family income in isolated villages

5.2.10 Participation of women in animal husbandry by family income in less isolated villages

5.2.11 Age and participation in animal husbandry in isolated villages

5.2.12 Age and participation in animal husbandry in less isolated villages

5.3.1 Women's participation in household activities in isolated and less isolated villages

5.3.2 Participation in household work by dwelling place in isolated villages

5.3.3 Participation in household work by dwelling place in less isolated villages

5.3.4 Participation in household work by type of family in isolated villages

5.3.5 Participation in household work by type of family in less isolated villages

5.3.6 Farm size and women's role in household tasks in isolated villages

5.3.7 Farm size and women's role in household tasks in less isolated villages

5.3.8 Family income and snaring of household tasks in isolated villages

5.3.9 Family income and share of women in household chores in less isolated villages
5.3.10 Form of marriage and sharing household work in isolated villages

5.3.11 Form of marriage and sharing household work in less isolated villages

5.3.12 Distance from natality and participation in household work in isolated villages

5.3.13 Distance from natality and participation in household work in less isolated villages

5.3.14 Participation in household tasks by marriage and distance in less isolated villages

5.3.15 Participation in household tasks by distance and marriage in less isolated villages

5.3.16 Participation in household work by marriage and distance in isolated villages

5.3.17 Participation in household work by marriage and distance in less isolated villages

5.4.1 Child care by women in the sample communities

5.4.2 Dwelling place and child care in isolated villages

5.4.3 Dwelling place and child care by women in less isolated villages

5.4.4 Family type and child care by women in less isolated villages

5.4.5 Family type and child care role in less isolated villages

5.4.6 Household size and childcare by women in isolated villages

5.4.7 Household size and child care by women in less isolated villages

5.4.8 Farm size and child care by women in isolated villages

5.4.9 Farm size and child care by women in less isolated villages.
5.4.10 Women in child care by family income in isolated villages.

5.4.11 Women in child care by family income in less isolated villages

5.5.1 Participation of women in income disposal in sample villages

5.5.2 Role in income disposal by family type in isolated villages

5.5.3 Role in income disposal by family type in less isolated villages

5.5.4 Role in income disposal by farm size in isolated villages

5.5.5 Role in income disposal by farm size in less isolated villages

5.5.6 Age of respondents and their role in income disposal in isolated villages

5.5.7 Age of women and participation in income disposal in isolated villages

5.5.8 Educational status and participation in isolated villages

5.5.9 Educational status and participation in income disposal in less isolated villages

5.5.10 Family income and women's role in spending in isolated villages

5.5.11 Role in income disposal by family income in less isolated villages

6.1.1 Participation of women in innovation decisions in the two samples

6.1.2 Size of land holdings and participation in innovation decisions in isolated villages

6.1.3 Size of land holdings and participation in innovation decisions in less isolated villages
6.1.4 Labour force participation and involvement in innovation decisions in isolated villages 172
6.1.5 Labour force participation and involvement in innovation decisions in less isolated villages 173
6.1.6 Family income and role of women in innovation decisions in isolated villages 174
6.1.7 Family income and decision-power of women respondents in less isolated villages 175
6.1.8 Family structure and decision by women in isolated villages 177
6.1.9 Participation in innovation decisions by family type in less isolated villages 178
6.1.10 Age and participation in decisions in isolated villages 179
6.1.11 Age and participation in decisions in less isolated villages 180
6.1.12 Age difference and decision-making in isolated villages 181
6.1.13 Age difference and decision-making in less isolated villages 182
6.1.14 Forms of marriage and access to decision in isolated villages 184
6.1.15 Forms of marriage and participation in decisions in less isolated villages 185
6.1.16 Distance from natality and role of women in decisions in isolated villages 187
6.1.17 Distance from natality and role of women in decisions in less isolated villages 188
6.2.1 Role of women in regular farm decisions in two samples 192
6.2.2 Age of respondents and participation in regular farm decisions (Isolated sample) 193
6.2.3 Age of respondents and participation in regular farm decisions in less isolated villages 194
6.2.4 Age difference between spouses and role in regular decisions in isolated villages. 195
6.2.5 Age difference between spouses and role in regular decisions in less isolated sample 196
6.2.6 Mean participation scores in regular decisions by age and age difference (Isolated sample) 197
6.2.7 Mean participation in regular decisions by age and age difference (less Isolated sample) 198
6.2.8 Residence and role in regular decisions (Isolated sample) 199
6.2.9 Residence and role in regular decisions (Less Isolated sample) 200
6.2.10 Family type and participation in regular decisions (Sample I) 201
6.2.11 Family type and participation in regular decisions in less Isolated villages 202
6.2.12 Women in farm decisions by farm size in isolated villages 203
6.2.13 Women in farm decisions by farm size in less isolated villages 204
6.2.14 Income and women's role in regular farm decisions in isolated villages 205
6.2.15 Women in farm decisions by income in less isolated villages 206
6.2.16 Participation farm decisions by women's role in farm work in isolated villages 207
6.2.17 Women's role in farm work and farm decisions in less isolated villages 208
6.3.1 Role of women in child care decisions in isolated and less isolated samples 210
6.3.2 Women in child care decisions by family type
(isolated villages) 211
6.3.3 Women in child care decisions by family type
(less isolated sample) 212
6.3.4 Women and child care decisions by income
(isolated sample) 213
6.3.5 Women in child care decisions by family income
(less isolated sample) 214
6.3.6 Women in decisions on child care by age
(isolated sample) 215
6.3.7 Women in child care decisions by age
(less isolated sample) 216
6.3.8 Educational status and decision-making on child care
(isolated sample) 217
6.3.9 Education of women and role in decisions on child care
(less isolated sample) 218
6.4.1 Participation of women in family budget decision by community
219
6.4.2 Role of women in decisions on buying clothes
by family type in isolated villages 221
6.4.3 Role of women in decisions on buying clothes
by family type in less isolated villages 222
6.4.4 Age of women and their role in decisions on buying clothes
in isolated villages 223
6.4.5 Age of women and role in decisions on buying clothes
in less isolated villages 224
6.4.6 Age difference between spouses and women's role
in decisions in isolated villages 225
6.4.7 Age difference in marriage and participation in decisions on buying clothes
in less isolated villages 226
6.4.8 Farm size and women in decisions on buying clothes
in isolated villages 227
6.4.9 Farm size and women in decisions on buying clothes in less isolated villages 228

6.4.10 Women in decisions on buying clothes by family income in less isolated villages 229

6.4.11 Women in decisions on income disposal by family income (Sample II) 230

6.4.12 Women's work participation and financial decisions (Sample I) 232

6.4.13 Participation in work and financial decisions (Sample II) 233

6.4.14 Mean decision scores by form of marriage and distance from natality 235
