ACKNOWLEDGEMENT

The strong support of my research supervisor, Dr. U.R. KALIAPPAN, Reader of Sociology, Bharathiar University, kept me going throughout the compilation of this thesis work. I remain forever grateful to him for teaching me the excitement of being a social researcher. His novel approach, encouragement and untiring assistance at all stages forms an excellent foundation for this work.

I am thankful to Dr. T. CHANDRAMOHAN REDDY, Reader of Sociology, Bharathiar University, for his valuable comments, advises and suggestions offered during this period of research. I am glad to acknowledge his special interest and concern shown for the completion of this work.

I thank Dr. M. LAKSHMANA SINGH, Professor and Head, Department of Sociology for all his administrative help during my stay in the department as a research scholar.

I thank Dr. P.M. KULKARNI, Dr. S. KRISHNAMOORTHI AND Dr. N. AUDINARAYANA faculties of Department of Population studies, Bharathiar University for having participated in the discussion and scrutiny of my research proposal in the initial stages of this research. I thank Dr. K.K. SURESH, Lecturer of Statistics for his encouragement and timely help.

I gratefully remember Mr. THYAGARAJAN, Trustee, Senthil Priya Trust, Malar Hospitals, Madras for funding
this research. I remember with great sense of happiness Dr. PERUMAL, Physiotherapist, Madras; Mr. N.K. ANANTHARAMAN, Retd. Judge, Madras; Dr. RAMACHANDRAN and Mrs. SARASWATHI RAMACHANDRAN, Coimbatore for recommending my name to the Trust and for their deep concern and continuous encouragement throughout this work. I would like to thank Bharathiar University for awarding me University Research Fellowship.

The staffs of Center for Social Development, Southern Regional Center, ICSSR, Hyderabad are thanked for training me in computer Applications, which has been a valuable advantage in compiling my thesis.

Special thanks to Dr. R. MARUTHAKUTTI and Dr. N. THENMOZHI, for their regular guidance and assistance in network analysis and statistical applications. Discussions and debates with the team of research scholars, Mrs. SARA NEENA, Mrs. SUNDARAVADIVU, Miss. R. MALARVIZHI, Miss C. ARUNA and Mr. S. SOMASUNDARAN, of Sociology Department and I.K. PADMINI of Population Studies have been of immense help in compiling this research work.

I am indebted to Mr. M.T. RAMASAMY GOWDA, Dy. Librarian, Bangalore University for his untiring effort in sending me innumerable literature on this research area. I am indebted to various network analysts of USA and UK who supported me and my work by mailing me the recent research papers and softwares. I also thank all the ICSSR centers and
University libraries of south India for allowing me to utilise their libraries and helping me to gather maximum literature.

I extend my special thanks to all personnel of Perundurai Administrative Offices, especially the staffs of Agriculture Extension Office, Perundurai and Village Administrative Officials of all the study villages. I sincerely acknowledge and appreciate all the widows for their hospitality and support who in spite of their grief and pain shared their past and remained informative. I acknowledge Mr. N. Kumarasamy, M/s. Kumaran computers for allowing me to analyse my data and type my thesis.

K. S. Malathi.
