ACKNOWLEDGEMENTS

I am so appreciative of Allah Almighty helping me through this research project.

The moment I thought of doing research the enthusiasm was high. But “It is like groping in the dark”. The hand that stretched and held me all these days of research, has the sensitive touch of intellect and intuition, is none other than that of Dr. Anil Kumar K., the Guide, Senior Lecturer in Education, Regional Institute of Education (NCERT), Manasagangotri, Mysore. No word appears to be a perfect substitute of praise to his “Guideship” experienced by me.

Special thanks to Prof. G.T. Bandage, Principal, RIE, Mysore; Prof. B. Phalachandra, Head, Department of Education, RIE, Mysore; Dr. N.N. Prahallada, Reader in Education, RIE, Mysore and Prof. V.D. Bhat, for allowing me to conduct the research and for their encouragement and cooperation during the study period.

I would also like to thank all the other faculty members of the Department of Education, RCC members of RIE Mysore and faculty members of the Department of Studies in Education of University of Mysore particularly Prof. M.S. Lalithamma and Prof. K. Yeshodhara for their continued support for conducting the study.

Special thanks is due to my father and mother, for making my education a priority and their love, training and support made me the person I am today.
Special appreciation is extended to my wife, Maryam who gave me her understanding and support during this research and to my son, Mohammad. I wish to extend my deepest appreciation to them who suffered all the problems for me.

I am forever grateful to my brothers and friends for their financial support during my research.

My thanks are due to the Heads and Faculty of The Deputy Director of Public Institutions in Mysore City and Fars Education Organization in Shiraz City and also Office of Education in my work place Meymand, for their cooperation, without which I would have never been able to start my Ph.D. program.

Additionally, I am truly grateful to the head teachers, teachers, parents and students for participating in the research study. I hope the results will be utilized for school reform efforts in secondary schools.
