ACKNOWLEDGEMENT

During the course of this research work I have received guidance, help, assistance, encouragement and inspiration from a number of individuals who contributed in many ways.

At the very outset, I express my deep sense of gratitude to my supervisor Dr. A.S. Chillar, Reader, Deptt. of Commerce, M.D. University, Rohtak, who monitored this work from the beginning to the completion of it. I record my sincere gratefulness to him for constant encouragement and his creative suggestions for improvement. I wish to thank Dr. M.S. Malik, Head, Deptt. of Commerce, for providing all the facilities available in the Department while carrying out my research work.

I also place on record the cooperation from all other faculty members in the Department who were always willing to extend any assistance whenever I approached them for any difficulty.

I would also like to thank Dr. Karam Pal, Reader, Deptt. of Management, G.J.University, Hisar for helping me while working out the problem on computer with the help of SPSS.

I would like to express my great appreciation to the library staff of various libraries including M.D. University, Rohtak, Indian Institute of Foreign Trade, New Delhi, National Board of Horticulture, Gurgaon, APEDA, New Delhi, and CCS Agriculture University, Hisar.

It is with great regard that I highly feel obliged to my husband – Mr. Nitin Singh who freed me from all domestic burden and also guided me on various key matters. I also pity on GANGA – my tiny lovely daughter who could not get my attention that she deserved during the course of my project.
I am also grateful to my parents and in-laws for constant encouragement, support and motivation.

I am also thankful to M/s Arora Electrostat, Rohtak for producing the thesis on computer so neatly and beautifully.

World's biggest flower

Titan Arum (Amorphophallus titanium) is the world's largest flower. Originally from the island of Sumatra in Indonesia, it was discovered in 1878 and cuttings were shipped to the Kew Gardens in London.

The Titan Arum plant grows 10 cm a day to a height of about two metres. When in full bloom the flower's diameter is about 1.1 metre.
