ACKNOWLEDGEMENT

I express my deep sense of gratitude to my learned supervisor Dr. Ashok K. Kalia, Senior Lecturer, Directorate of Distance Education, M. D. University, Rohtak for his valuable guidance and necessary help at every stage of the study. His indefatigable fact finding zeal was a source of constant inspiration. In fact, but for his pains taking supervision and inspiring discussion this treatise would have never attained this stage.

I also owe my sincere gratitude to Dr. R. C. Hooda, Reader and Head, Department of Education, M.D. University, Rohtak for his Co-operation, Valuable Suggestions and Guidance given to me at the various stages of study. I am also thankful to Dr. (Mrs.) Indira Dhull, Sr. Lecturer, Department of Education, for the useful discussion at the various stages of study.

I am extremely thankful to the Library staff of the M.D. University, Rohtak, IGNOU and NCERT, New Delhi for their co-operation in making available books and journals whenever they were required.

My sincere thanks are due to Mrs. Prinyaka Gulati, the Vice Principal of school who permitted me to conduct the experiment in the school and provided all facilities for the present research.

I am extremely grateful to my husband Ashwal Thukral (Computer Engineer) for his pleasant association, co-operation and moral support during the research. Infact, the present research would have not taken the shape without his active involvement in the computer related work.

Lastly I will be failing in my duties if I do not express my thanks to parents and relatives who have directly or indirectly helped me during the course of research.

Department of Education,
Maharshi Dayanand University,
Rohtak.
