Acknowledgement

Though we thank God, the Supreme Almighty, daily, I feel deeply blessed when I see my hard work accomplished by virtue of blessings of God and my parents and Teachers.

It would take pages to acknowledge everyone who in sometimes and who in some way or the other, helped me along my path reaching this goal, but certain individuals merit special thanks for their valuable help.

It is with a deep sense of gratitude that I take this opportunity to express my sincere thanks to my honourable and learned teacher and guide, Prof. Navneet Agarwal, MD, Professor, Department of Medicine, MLB Medical College, Jhansi. A Brilliant Diabetologist and physician, dynamic personality and eminent academician, it is my proud privilege to have associated with and remain under his constant vigilance. The joy and experience of working under his guidance is really something out of this world. His invaluable suggestions, constructive criticism, meticulous attention to detail and authentic corrections have made this work possible. It is virtually impossible to express in words my deep sense of indebtedness and profound gratitude to him. He will always remain a constant source of inspiration throughout my life.

About my co-guide, Dr. N.S. Sengar, DM (Nephro), Associate Professor in Nephrology, Department of Medicine, MLB Medical College, Jhansi, the more said is the more less. His affectionate guidance, invaluable support, perfection in approach and keen interest have helped me immensely.
The constant encouragement and subtle criticism offered by him were source of strength that enabled me to tread forward every obstacle in my path of work.

I am greatly thankful to Prof. P.K. Jain, MD, MNAMS, Professor & Head, Department of Medicine, MLB Medical College, Jhansi. His sense of precision, infallible tenacity, passion for reason, compassion towards patients, holistic approach, knowledge and experience, were constant source of inspiration to me. It was under his able guidance, I read, learned and ventured to write.

I am greatly thankful to Prof. P. Kumar, DM (Cardio) who teach me to approach any task with utmost perfection. He helped me a lot to sort out my problems and steered me towards the harbour of success.

I take this opportunity to acknowledge most humbly with a deep sense of gratitude and indebtedness to Dr. Gyanendra Kumar MD (Psy.), Dr. Nutan Kumar Agarwal MD, Lect. Department of Medicine for giving me inspiration and encouragement.

"The habits of punctuality, order, diligence, obedience, determination, humour of prestige and concentration to goal are key to success" is what has been inculcated into me by my noble and respected parents. I am very much indebted to my parents who framed me out as a sensible human being.

I am also deeply obliged to Babita, who constantly encouraged me to accomplish my work perfectly, and taught me to study with a holistic approach and with enthusiasm. I am also indebted to my other family members for their inspiration, moral support, love and encouragement.
throughout my studies without which I would never have been able to accomplish my thesis work.

I am highly thankful to my colleagues Dr. Vinod Kumar Singh, Dr. Amit Taneja, Dr. Amit Goel, Dr. R. Kushwaha, Dr. R.M. Katiyar, Dr. Deepak and other residents in the Department for their extreme co-operation for the entire period of work to carry out this present study.

I thank nursing and hospital staff for their goodwill and kind co-operation with special thanks to Vardhman Medical & Diagnostic center.

I am equally thankful to all the patients and their relatives who were the very basis of the study; whose positive response throughout study encouraged me for this endeavor.

I would like to express my thanks to Mr. Vinod Raikwar (V.K. Graphics, Medical Campus), with his meticulous typing and humble nature formed an inseparable part of this study. He did the typing work even at odd hours.

Lastly but not the least I am thankful to all the people who are not mentioned here, albeit took active part in this work and helped me to complete this study and reach conclusions.

Date: 28.10.2005

Dr. Vijay Kumar Verma
