OBJECTIVES

The Real world of interlocked economic and ecological systems will not change, the policies and institutions concerned must

Our Common Future
CHAPTER -II

OBJECTIVES

This study is envisaged with the following major objectives:

- to document the rate of growth of industries and the resultant growth in the population and the other related infrastructure in Pondicherry region

- to evaluate the changes in the ambient air quality, water quality in relation to industrialisation along with the generation of industrial solid waste and their impacts

- to study the changes in the land use pattern induced by industrialisation and their impacts

- to forecast the future environmental scenario in relation to industrialisation

- to prepare an Integrated Environmental Management Plan for sustainable industrialisation of Pondicherry region.
