CONTENTS

CHAPTER 1: GENERAL INTRODUCTION

1.1 The Mangrove Ecosystem 2-6
1.2 Threat to biodiversity 6-7
1.3 Man and Molluscs 7-8
1.4 Bivalves 8-12
1.5 Need to study the unknown bivalves like *P. erosa* 12
   1.5.1 Documentation and Conservation 12-13
   1.5.2 Food Security 13-14
1.6 The clam resources of India 14-15
1.7 *Polymesoda erosa* — hope for the future 15-17
1.8 Aims and objectives 17-19
   1.8.1 Objectives 19
1.9 Significance of the study 19

CHAPTER 2: STUDY AREA AND SAMPLING

2.1 Description of study sites (for distribution and abundance) 20
   2.1.1 Shirgoa and Kalbadevi, Ratnagiri 20-21
   2.1.2 Kolamb creek, Malvan 21-22
   2.1.3 Terekhol and Sinquerim Goa 22-23
   2.1.4 Alvenondi-Alvekodi Island, Kumta 23
2.2 Choice for selecting Chorao as site for comprehensive study 23
2.3 Description of Chorao island 24
   2.3.1 Location 24
   2.3.2 The Mandovi River 24-26
   2.3.3 Tides and currents in the Mandovi estuary 26
   2.3.4 Chorao island 26-27
   2.3.5 Climatological Features 27-28
2.4 Sampling

2.4.1 Sampling protocol 28
2.4.2 Sampling Design 28-29
2.4.3 Sampling for clam population 29
2.4.4 Sampling of environmental parameters 29-30
(Sediment and Water)

CHAPTER 3: MORPHOLOGICAL STUDIES

3.1 Introduction 31-32

3.2 Materials and Methods 32-33

3.2.1 Growth measurements 34
3.2.2 Size at first maturity 34
3.2.3 Sex ratio 34
3.2.4 Morphometric relationship 34-35

3.3 Results 35

3.3.1 Structural Morphology 35
3.3.1.1 The Shell 35-36
3.3.1.2 The Siphons 36
3.3.1.3 The pedal gape 37

3.4 Size variation of *P. erosa* along the west coast of India 37

3.5 Population structure 37-39

3.6 Growth 39-40

3.7 Morphometric relationships 40-41

3.8 Discussion 41

3.8.1 Growth in Size 41-42
3.8.2 Morphometric relationships 42-44
3.8.3 Size at first maturity 44
3.8.4 Sex ratio 44-45
CHAPTER 4: *P. EROSA AND ITS ENVIRONMENT*

4.1 Introduction

4.2 Materials and Methods

4.2.1 Temperature

4.2.2 pH

4.2.3 Salinity

4.2.4 Dissolved Oxygen (DO)

4.2.5 Nitrite-Nitrogen (NO₂⁻-N)

4.2.6 Nitrate-Nitrogen (NO₃⁻-N)

4.2.7 Phosphate-Phosphorus (PO₄³⁻-P)

4.2.8 Chlorophyll a (chl a)

4.3 Effect of temperature, salinity and air exposure on *P. erosa*

4.4 Data Analyses

4.5 Results

4.5.1 Temperature

4.5.2 pH

4.5.3 Salinity

4.5.4 Dissolved Oxygen (DO)

4.5.5 Nutrients (NO₂⁻, NO₃⁻, PO₄³⁻)

4.5.6 Chlorophyll a (chl a)

4.5.7 Gut content analysis

4.5.8 Relationship between the environmental parameters and clam

4.5.9 Effect of temperature, salinity and exposure to air

4.6 Discussion

4.6.1 Emersion and *P. erosa*

4.6.1.1 Effect of Dessication

4.6.1.2 Effect of exposure on the survival of clams

4.6.1.3 Effect of temperature changes

4.6.1.4 Effect of salinity changes

4.7 Correlation of *P. erosa* with the environmental parameters
CHAPTER 5: DISTRIBUTION AND ABUNDANCE OF *P. EROSA*

5.1 Introduction 74-76
5.2 Materials and Methods 76-77
5.3 Data analyses 77
5.4 Results 77-79
5.5 Discussion 80-85

CHAPTER 6: REPRODUCTION IN *P. EROSA*

6.1 Introduction 86-87
6.2 Materials and Methods 88-89
6.3 Results 89
   6.3.1 Description of the gonadic phases 89-90
   6.3.2 Reproductive cycle 90-93
6.4 Discussion 93-100

CHAPTER 7: RECRUITMENT IN *P. EROSA*

7.1 Introduction 101-104
7.2 Materials and Methods 104
   7.2.1 Sampling for settlers, juveniles and adult population at Chorao island 105
      7.2.1.1 Sampling the newly settled population (field experiment with cages) 105
      7.2.1.2 Sampling the juvenile population 105-106
      7.2.1.3 Sampling the adult population 106
    7.3 Results 107
       7.3.1 Settling population of *P.erosa* 107
       7.3.2 Juvenile population of *P. erosa* 107-108
       7.3.3 Adult population of *P. erosa* 108-109
7.4 Discussion 109-117
CHAPTER 8: BIOCHEMICAL COMPOSITION OF P. EROSA

8.1 Introduction 118-120

8.2 Materials and methods 120

8.2.1 Protein 121-122

8.2.2 Carbohydrate 122-123

8.2.3 Lipid 123

8.2.4 Data analyses 123-124

8.3 Results 124-125

8.3.1 Condition Index 125

8.3.2 Changes in body weight 125-126

8.3.4 Relationship of tissue weight changes with reproductive cycle 126-127

8.3.4 Biochemical components 127-128

8.4 Discussion 128-132

Chapter 9: CONCLUSION. 133-141
