SELECT BIBLIOGRAPHY

Books
Altman, E I , 1967 “The prediction of corporate bankruptcy A discriminant analysis” Los Angeles University of California
Bailey, Kenneth D , 1978 *Methods of social research* New York
Errki, K Laitinen, Teija Laitinen, 2000 "Bankruptcy prediction Application of the Taylor’s expansion in logistic regression" *International Review of Financial Analysis* 9, 327-349
Hosmer, D W , and Lemeshow, S , 1989 *Applied logistic regression* Willey

**Journals**

Ann L Watkins, 2000 “Hospital financial ratio classification patterns revised
Upon considering non financial information” Journal of Accounting
and Public Policy 19, 73-95
investigation of cash flow based models” Journal of Management
Studies 25, 419-437
Beaver, W ., 1966 “Financial ratios as predictors of failure Empirical
research in accounting of selected studies” Journal of Accounting
Research 5, 71-111
Blum, M ., 1974 “Failing company discriminant analysis” Journal of
Accounting Research, 1-23
Chandy, P R , Duett, E , 1990 “Commercial paper rating models” Quarterly
Journal of Business Economics 29 (4), 79-101
ratios” Financial Management, 51-60
Cheung, S , 1996 “Provisional credit ratings in Canada An ordered probit
analysis” Bank of Canada, Working Paper 96
Conover R , R L , Longini, A , “A feedback model for automated real estate
assessment”, Management Science 14, 214-248
Crouhy, M , Galai, D , Mark, R , 2000 “A comparative analysis of current
credit risk models” Journal of Banking and Finance 24, 59-117
Dambolena. I G., Khoury, S J , 1980 “Ratio stability and corporate failure”
Journal of Finance 35, 1017-1026
Deakin, E B , 1972 “A discriminant analysis of predictors of business failure”
Journal of Accounting Research, 167-179
Dutta, S , Shekar, S , 1988 “Bond rating A non conservative application of
neural networks” Proceedings of the IEEE International Conference
on Neural Networks, 2, 444-450
Edminster, R O , 1972 “An empirical test of financial ratio analysis for small
business prediction” Journal of Financial and Quantitative Analysis 7,
1477-1493
Fuller-Love, N., Rhys, H., Tippet, M., 1995 “Harmonic analysis, time series variations and the distributional properties of financial ratios” Omega
International Journal of Management Science 23 (4), 419-427

Gardiner, L., Oswald, S. L., Jahera, J. S., 1996 “Prediction of hospital failure A post-PPS analysis” Hospital and Health Services Administration 41, 441-460

Hettmansperger, T. P., “Statistical Inference Based on Ranks” Psychometrika 43, 69-79

Kshama Agarwal, 2003 “Credit rating of debenture A multivariate analysis” The Indian Journal of Commerce 56 (1), 57-62

Laitinen, K. K., Laitinen, T., 1998 “Cash management behaviour and failure prediction” Journal of Business Finance & Accounting 25, 843-920

Raghunathan V and Varma J R, 1992 “CRISIL rating When does AAA mean B?” *Vikalpa*, 17 (2), 35-45

Rahul Dhumale, 1998 "Earnings retention as a specification mechanism in logistic bankruptcy models A test of the free cash flow theory". *Journal of Business Finance & Accounting* 25 (7) and (8), 306-686

Shumway, Tyler, 2001 “Forecasting bankruptcy more accurately A simple hazard model” *Journal of Business* 74, 101-124

Taffler, R., Tisshaw, H., 1977 “Going, going, going – four factors which predict?”, *Accountancy* 88, 50-54

Reports

Cho, M., 1994 “Predicting business failure in the hospitality industry an application of logit model” Doctoral Dissertation, Virginia Polytechnic Institute and State University
Falkenstein, Boral, E A, Carty, L, 2000 “Risk calc private model Moody’s default model for private firms” Moody’s Investor Service
Khandani B, Lozane, M, Carty, L, 2001 “Moody’s risk calc for private companies The German model” Moody’s Investor’s Service
Koresh Galil, 2002 “The quality of corporate credit rating” Ph D Dissertation, Eitan Bergias School of Economics, Tel-Aviv University
