BIBLIOGRAPHY
BIBLIOGRAPHY

Asberg TM.

Alexander WC, Kearns N, and Kohner EM.

Alacart and Slesses (1957).

Algvers P and Gjotterberg M.

Allen L.

Allen L, Kirkendall, WM, Snyder WB, and Frazier C.

Andersen DR.

Archer DB.

Arnold Blood, and John Ireland.

Ashton N.

Arteriolar involvement in diabetic retinopathy.

Ashton N.

Ashton N.

Vascular Basement Membrane changes in Diabetic Retinopathy.

Ballantyne and Lesenstone (1943)

Ballantyne and Michealson (1946).

Ballantyne and Michealson (1947).

Benjamin, P, and Hollows FC.

Classification of Diabetic Retinopathy with therapeutic implications.
Beetham WP.

Visual prognosis of proliferative diabetic retinopathy.

Bedansky HJ, Cudworth AG, Whitecoche AF and DeBree JH.

Diabetic retinopathy and its relation to diabetes.

Bresnick GH, Davis MD, Myers FL, and deVenceia G.

Clinical pathological correlation in diabetic retinopathy.

Bresnick GH, deVenceia G, Myers FL, Harris JA, and Davis MD.

Retinal Ischaemia in Diabetic Retinopathy.

Bresnick GH.

Burditt AF, Caird F and Draper BJ.

Natural history of diabetic retinopathy.

Carpenter RG and Taylor KW.

Cogan DJ and Kusahara T.

Capillary shunts in the pathogenesis of diabetic retinopathy.
Cunha-Vaz, JG, Shakib N and Ashton M.

Studies on the permeability of blood retinal barrier.

Cunha-Vaz JG.

Studies on permeability of the blood retinal barrier-III

Davis MD.

Vitreousencentration in proliferative diabetic retinopathy.

The Diabetic Retinopathy Study Research Group.

Debree JH.

Proliferative Diabetic Retinopathy.

Dolezalova V, Cervena Z and Novak T.

Occurrence of Diabetic Retinopathy. quoted in Ophthalmic Literature.
Para 92, Sep., 1981.

Dellery CT, Hodge JV and Engel N.

Studies of retinal circulation with Fluorescein.

Duke-Elder.

System of Ophthalmology, Vol. X,
Frank RN, Hoekman WH, Podger MJ, and Joondaph HC.

Retinopathy in juvenile onset diabetes of short duration.
Quoted in Ophthalmic literature, para 1125, Dec 30, 1980.

Grayson MD, Laties AM.

Ocular localisation of Sodium Fluorescein.

Haining WM and Lancaster HC.

Advanced technique for Fluorescein Angiography.

Hayreh SS.

Fluorescence Retinal Angiography-I.

Hayreh SS.

Recent advances in Fluorescein Fundus angiography.

Hayreh SS and Baines JA.

Fluorescein Fundus Angiography.
Effects on choroidal circulation.

Hayreh SS.

Segmental nature of choroidal vasculature

Hirschberg (1930-91).

Hodge JV and Clemett RS.

Hodge JV and Dellaray CT.

Joslin, Root, White and Marble.

Kahn NA and Bradley RF.

Kingsley R, Ghosh G, Lowson P and Lehner EM.

Lange K and Boyd LJ.

Use of fluorescein method in establishment of diagnosis and prognosis of peripheral vascular disease.
Arch Intern Med. 74:173, 1944.

Larsen (1980).

Quoted by system of Ophthalmology.

Lawrence IR.

Recent advance in diabetic retinopathy.

Lee, McCray, Schepens and Field.

Levane R, Harton G and Corn R.

Flatmount studies of human retinal vessels.

MacLeod AL and Maumence AE.

Hemangions of the choroid.

Morton EMD and Curtman F.

Diabetic Retinopathy studied by Fluorescein Angiography.

Novotny, HR and Avlis DL.

A method of photographing fluorescein in circulating blood in the human retina.
Oakley WG, Pyke DA, Tattersall RB and Watkins PJ.

Long term diabetes a clinical study of 92 patients after 40 years.

Root HF, Stanley Mirsky and Jorn Delzol.

Proliferative Retinopathy in Diabetes Mellitus.

Roy MS and McCulloch JC.

Peripheral retinal haemorrhage in long duration.
Insulin dependent diabetic with minimal background retinopathy.

Scott DJ, Dollery CT, Hills DW, Hodge JV and Rassell P.

Fluorescein studies of the retinal circulation in diabetes.

Scott CI (1951).

Quoted by System of Ophthalmology.

Scott DJ, Peller CT, Hills DW, Hodge JV and Russell Fraser.

Fluorescein studies of the retinal circulation in diabetics.

Shakib N, Barthowski P and Wise GN.

Fluorescein angiography and Retinal Pigment Epithelium.
West M, Erdreich LJ and Steber JA.

A detailed study of risk factors for retinopathy and nephropathy in diabetes.

Optic disc neovascularisation in Diabetic Retinopathy.

Rama Mohan & Eva M Kohner.

Retinal revascularisation in Diabetic Retinopathy.

Brian C Joendesph, Howard C Joendesph and Timothy P. Flood.

Proliferative Diabetic Retinopathy with Foveal Neovascularisation,

The Diabetic Control and complication trial research group.

Colour photographs verses Fluorescein angiography in detection of Diabetic Retinopathy.

Jhen M, Williams, Eugene deJuan and Robert Machemer.

Retinal Cotton Wool spots, an early finding in Diabetic Retinopathy.
B.J.O. 1986;70, 772-778.
