ACKNOWLEDGEMENTS

Several people helped wittingly and unwittingly in the preparation of this work, but some people are incomparable. I wish to express my deep sense of indebtedness to my venerated research guide Dr. Pramodkumar S. Hire for giving me an opportunity to work under his guidance. I am thankful to him for the trust shown in me for taking up this research work. His thorough guidance, motivation and priceless suggestions throughout this work is beyond to express in words, I owe sincere thanks towards him. The approach towards the research, which he has inculcated in me, will help me forever.

This work would not have been possible without the help of Tilak Maharashtra Vidyapeeth, Pune and Savitribai Phule Pune University, Pune. I am grateful to these Universities. I convey special thanks to the officials of India Meteorological Department (IMD), Pune and Chennai for supplying the rainfall data. I am very much thankful to Indian Institute of Tropical Meteorology (IITM) for allowing me their neat library for the reference work. My sincere thanks are due to all the authors whose work has been reproduced from their published research papers and books.

I express my gratefulness to Prof. Ms. Archana Patil for her valuable contribution in preparation of maps, data analysis and design of the thesis. I really appreciate her sincere efforts which made this work up to date and presentable. I am also thankful to Prof. Uttam Pawar for his help during the field work.

I owe special thanks to all my teachers especially Professor Shrikant Karlekar, Professor Vishwas S. Kale, and Dr. (Mrs.) Bhagyashree Yargop not only for their academic guidance but also for giving proper direction in my personal development.
