Acknowledgment

It is matter of great pleasure and proud privilege for me to express my heartfelt sense of gratitude towards all those personalities who have always lent a hand in my pursuit for knowledge in diverse ways.

No words of appreciation are enough for my parents Mr. Dhirubhai and Mrs. Dharmistaben. They gave me my life, my name, and everything else to grow and flourish. It gives me immense pleasure to thank my wife Mrs. Falguni, for her unconditional love, care and persistent confidence in me. She helped me to concentrate on completing this thesis and whole heartedly supported during this Ph.D work. This Ph.D is only due to her encouragements. She is always with me in my every situation. From the first day of Ph.D to the last day of this research and whole life. The words are insufficient to express my feelings towards her. I also gratitude my brother Dilip, Vrushikabhabhi and Rudra (nephew) for support and help at every stage of my personal and academic life. I am also thankful to my in-law family members, Mr. Jagdishbhai, Mrs. Alkaben, Mr. Nareshbhai, Mrs. Sunitaben, Mr. Pulkit, Mrs. Richa, Mr. Sahil, Mrs. Javnika, Mr. Darshan, Ms. Jiya and cute Harshil and Divit for their selfless support.

I am highly indebted intellectually to my guide Dr. Manish P. Patel, for his ever-growing encouragement, proper guidance and kind support in every aspect of research and personal life. It could have hardly been possible for me to undertake this research venture without his precious, intellectual, knowledgeable and valuable suggestions. Also, I am gratified to Mrs. Renukaben M. Patel for her moral support during my research period.

I would like to express my profound sense of gratitude to the Head of the Department of Chemistry, Prof. D. I. Brahmbhatt, whose keen interest and optimistic approach has been a constant source of inspiration for me, and providing research facilities. I am also thankful to all teaching and non-teaching staff for their kind-heartedly support. Especially thanks are due to Mr. Hareshbhai, Mr. Jayeshbhai, Mr. Kirtibhai, and Mr. Vijaybhai, Mr. Gautam.
I am very thankful to Dr. V. S. Patel (Ex-Vice Chancellor, Sardar Patel University) and Dr. (Miss) R. G. Patel, Professor of organic chemistry, Sardar Patel University, for giving me benefit of their knowledge and constructive criticisms during my research progress.

Some of friends are like roots of tree, they never show their existence but they are responsible for the development; thank you very much Nirav, Umesh, Shesil.

I express heartily feelings to all my well-wishers and colleagues Dr. Hardik, Dr. Harshad, Dr. Yatin, Dr. Mehul, Dr. Viran, Gaurav, Jayvir, Haresh, Ankit, Pratibha, Pratik for their kind help during the course of my work. I am also thankful to my friends Dr. Nilesh Vaghela, Dr. Jani, Dr. Vivek, Dr. Tushar, Arvind, Sanjay, Juggal, Jayraj... for their co-operation throughout research work.

I am thankful to Sophisticated Instrumentation Centre for Applied Research and Testing, V. V. Nagar; and DST, New Delhi for the assistance in general & for the PURSE central facility for providing analysis facilities.

I am also grateful to UGC, New Delhi for UGC BSR Research Fellowship.

I am also graceful to Dhanji P. Rajani and Kalpesh B. Thakar, Microcare Laboratory, Surat for providing antimicrobial screening facilities.

Finally, I would like to thank everybody who was important to the successful realization of thesis, as well as expressing my apology that I could not mention personally one by one.

At last, I greatly thank the my Lord for their blessings and giving a beautiful and purposeful life which is full of joy as well as exciting opportunities, challenges and learning till I breathe.

- Nileshkumar D. Vala
