ACKNOWLEDGMENTS

I have great pleasure in expressing my deep sense of gratitude and sincere thanks to my Research Supervisor and teacher Dr. H. Sudarsana Rao, Professor of Civil Engineering and Rector, JNT University Anantapur, for his valuable guidance, keen interest and critical evaluation of work, encouragement and continuous help at all the stages and the care he has taken in bringing up this thesis to this form.

I am very much grateful to Dr. K. Lal Kishore, Vice-Chancellor, Dr. K. Hemachandra Reddy, Registrar, and Dr. K. B. Chandra Sekhar, Director, R&D Cell, J.N.T. University Anantapur and Dr. K. S. R. Anjaneyulu, Principal, JNT College of Engineering, Anantapur, for their encouragement and cooperation in successful completion of this research work.

I am highly thankful to Dr. C. Sasi dhar, Head of the Civil Engineering Department, and Dr. N. Venkata Ramana, Assistant Professor, Department of Civil Engineering, JNT University Anantapur for their invaluable help, guidance and timely support and encouragement extended to me at every stage of this work right from defining the problem.

I am very much thankful to Dr. Vaishali G. Ghorpade Associate Professor, Department of Civil Engineering, JNTUCEA, for her encouragement and moral support in successful completion of this research work.

I express my sincere thanks to the authorities of Department of Civil Engineering, College of Engineering, Visakhapatnam, in particular to Prof. B. S. N. Raju, Head of the Department, Prof. Malleswar Rao, BOS, and Prof. G. S. N. Raju, Principal, AUCEA for allowing me to pursue the thesis and encouragement extended during the thesis.
I am thankful to my colleague professors, Dr. D.S.R.Murthy Dr.G.V.R.Srinivasa Rao, Dr.P.V.V.Satyanarayana, Dr.K.Rambabu, Dr. G.V.Rama Rao, Dr.T.V.Praveen, and Dr. C.N.V.Satyanarayana Reddy, Department of Civil Engineering, AUCE for their support and encouragement extended to me during thesis.

I am also thankful to my colleagues at the Department, Sri.S.Adiseshu, Dr.K.Srinivasa Rao, for his editorial help and support, Dr.M.G.Muni Reddy, Dr.I.Siva parvathi, for her help in using software and Sk. Yazdhani for their encouragement and support during the thesis.

I am especially thankful to SM lab staff at the Department, AUCE, for their help in conducting experiments in particular Sri. M. Sai Ram, Sri. N.Trinadh Reddy, Gouri Manohar, Guru Naidu, and Sagar. I am very much thankful to the authorities of JNT University college of Engineering, Hyderabad or enabling me to conduct experiments at SM Lab during my research work.

I record my sincere and unqualified gratitude to team of Cranes Software for their help in learning software and assistance in developing the model. I acknowledge their contribution gratefully.

I also want to express special thanks to Miss Priyanka Reddy who assisted me in preparing literature and Miss Harika for typing whatever I asked while writing this thesis.

I am highly thankful to my father, and relatives for their worry about my completion of thesis, interest, support and encouragement shown during the thesis.

I feel short of words in expressing my indebtedness to my wife for her patience, love, moral support, and encouragement shown during thesis and loving children for their support and sparing computer during preparation of thesis.

K.Rajasekhar
