ACKNOWLEDGEMENT

I will always remain grateful to God for his abundant blessings during the course of this study. As I move towards the final destination of this remarkable journey of learning, I acknowledge the invaluable contributions of my teachers, family and friends.

This endeavour would not have been possible without the guidance and support of my Research Guide Dr. M. Bhasi, Professor, School of Management Studies. Words are inadequate to express my profound sense of gratitude to him for his patience and support during the course of this study. His suggestions and comments have helped me immensely to be an independent researcher.

My heart-felt thanks are due to Dr. Mary Joseph, Director, School of management studies and Dr. K Krishnan Nampoothiri, member of my Doctoral Committee for their support and encouragement.

I am extremely grateful to Dr. Joseph I. Injodey, Principal, Rajagiri College of Social Sciences, for giving me support and for providing the necessary facilities to complete the study. He was a true mentor who kept motivating me whenever I was slowing down in the race.

I am deeply indebted to all the software professionals, from whom the data for this study was collected, for their co-operation and patience in responding to the research questionnaire.

I remember my family with gratitude, for the love and encouragement I received from them. For my parents Mr. P J Thomas and Mrs. Thresiamma Thomas, it is a dream coming true. My wife Sheeja and our little kids Sandra and Rahul supported me with their hearts and minds.

All my colleagues in School of Management Studies, CUSAT and at Rajagiri School of Management have given me constant support during the period of my study. Among them, thanks are especially due to Dr. Anandakuttan B Unnithan, Dr. Sebastian Rupert Mampilly, Dr. Joshy Jacob, Prof. Veeva Mathew, Prof. Rosemary Varghese, Prof. K.A Zakkar, Prof. Binoy Joseph and Mrs. Rose Paul.

Lastly, I would like to acknowledge the contribution of those whose names have not been mentioned but who have, nevertheless, played their part in making this research work successful.
