ACKNOWLEDGEMENT

The research work presented has only been made possible through the help and support received from number of remarkable individuals, I dedicate my acknowledgment of gratitude to all of them.

First and foremost I express my deep sense of gratefulness to Prof. (Dr.) Rajendrakumar Anayath my Supervisor for guiding and supporting me over the years. His enthusiasm is contagious and the meticulous feedback which helped me to complete well within the time frame. His perspective and encouragement meant a great deal to me. During the most difficult times while writing this thesis, he gave me moral support and the freedom I needed to proceed ahead.

My sincere thanks are due to Prof. (Dr.) Dharminder Kumar, and Prof. (Dr.) Dinesh Chutani, Department of CSE, to whom all I am obliged for their suggestions and supports since the day I began working.

I take opportunity to express my profound sense of gratitude to Prof. Peter Urban, Wuppertal University, Germany, who has supported me academically and emotionally to run through the rough road of research providing proper direction to reach the goal through the experimental part of my research work. He has always been a source of care and energy ever since I met him.

I would like to express my special appreciation and thanks to Mr. Ron Fuller, Director, SANDAN DRY OFFSET, U.S.A., for his kind support in master preparation.

I have learnt many more from Prof. Nawal Kishore, Department of Physics, GJUS&T in regard to pursuit of learning to understand the real objective of science and technology for the benefit of humanity. I also thank to Dr. Sanjay Tiwari and Sh. Satpal Singh for the helps rendered by them.

I recognize the support and help from Sri Naresh Goyal, Dora Offset, Hisar in conducting various test printing as part of my study. I am also thankful to Dr. Rajesh Thakur, Dr. Kapil Choudhery and all the Standard observers who helped in my work.

A special acknowledgement goes to my colleagues Sh. A.K. Baral, Sh. Arohit Goyat, Sh. Pankaj Kumar, Mrs. Vandana, Mrs. Priti Prabhakar, Sh. Abhishek Saini, Sh. Sanjeev Kumar, Sh. Satish Kumar, Sh. Ankit Boora and Sh. Bijender Kaushik for helping me out in my thesis work. I praise the enormous encouragement rendered by my father Prof. (Dr.) Deena Bandhu Pandey, to complete my studies.
Finish with Hisar, where the most basic source of my life energy resides: my family. An amazing family for the love, support, and constant encouragement I have obtained over the years. Words cannot express how grateful I am to my Late mother Revered Smt. Indu Bala Pandey, for all of the sacrifices that she made on my behalf. Her prayer for me was what sustained me thus far. I would like to thank, my daughter and son Mudita and Apoorva respectively and my beloved wife Rekha who have always been very supportive in the moments when there was need for my academic work.

I bow my head and thank the almighty God for bestowing blessings on me to achieve the goal of life.

Ambrish Pandey
