most popular service sector in India. The significant role of banking industry is essential to speed up the social economic development. Banks play an important role in the economic development of developing countries. Economic development involves investment in various sectors of the economy. In this context, the present study is aimed to study the Financial Performance of the State Bank of India and its Associate Banks in India with the help of 51 financial ratios to study the capital adequacy, asset quality, management efficiency, earning quality, liquidity position and profitability of the State Bank of India and its associate banks in India. It is found from the analysis that the financial performance of the State Bank of India and its associate banks are satisfactorily and significantly growing year-after-year and maintains its market leadership in the money market segment of the financial markets of the country. The findings of the study will be very much useful to the management of the study units and also other banking companies to formulate polices to strengthen the financial status of the banks so that all the stakeholders especially the shareholders of the company is highly satisfied with the presents of the banking companies. The study will pave the way to undertake many more studies in the field of banking industry in general and studies in the banking companies in particular.
