## CONTENTS

### ABSTRACT

### CHAPTER - I: INTRODUCTION

- Technology is a key driver of Service Innovation
- Distribution channels take various forms
- Motivation for the study undertaken by the researcher
- Organization of the thesis

### CHAPTER - II: THEORETICAL BACKGROUND

**FOR THE STUDY: LITERATURE REVIEW**

- Service Business
- Service Process Classification
- Nature of the Service Offering
- The Services Marketing Mix
- Service Factory Design
- Distributing Services
- Service Environments
- Service Quality
- Customer Satisfaction
- Health care service
  - Customer in Health care service
  - Credence Qualities of Healthcare Service
CHAPTER - III: FORMULATION OF HYPOTHESES

METHODOLOGY AND RESEARCH PROCEDURES

- Critical Incident Technique

- Formulation of Hypotheses
  - Hypotheses

- Quantitative Research
  - Research Methods
  - Questionnaire Design
  - Development of Survey Instrument
  - Pre-testing of the Questionnaires
  - Sampling and Data Collection
  - Preliminary Analyses
  - Stepwise Regression

- Scenario 1 – Impersonal channel of Service delivery (Indirect Channel)

- Scenario 2 – Face-to-face Health care Service delivery (Direct Channel)

- Scenario 3 – Low Complexity - Impersonal channel of Service delivery (Indirect Channel)
- Scenario 4 – Low complexity -Face-to-face Health care Service delivery (Direct Channel) 107

- Scenario 5 – High Complexity -Impersonal channel of Service delivery (Indirect Channel) 116

- Scenario 6 – High complexity -Face-to-face Health care Service delivery (Direct Channel) 123

CHAPTER - IV: CONCLUSIONS AND DISCUSSIONS 134 –172

- Results and Findings of Quantitative Study 134
- Discussion of Findings of Quantitative Study 143
- Research Contribution to advancement of Theory 155
- Managerial Implications of Study 160
- Limitations of the Study 171
- Scope for Future Research 172

BIBLIOGRAPHY 173 – 190
