LIST OF TABLES IN APPENDIX

A. Correlation tables ........................................................................................................ 203
Table A.1 Correlation table of Private Banks ........................................................................ 203
Table A.2 Correlation table of Public Banks ......................................................................... 204

B. Mean and Standard Deviation tables ............................................................................ 205
Table B.1 Significance of Difference (t-values) between the Mean Scores of Different V
groups on role stress(overall and dimensions) - Private Bank Employees ....................... 205
Table B.2 Significance of Difference (t-values) between the Mean Scores of Different V
groups on role stress(overall and dimensions) - Public Bank Employees ......................... 206
Table B.3 Mean and Standard deviation of Role Stresses of Private Banks ......................... 207
Table B.4 Mean and Standard deviation of Role Stresses of Public Banks ......................... 208
Table B.5 Mean and standard deviation of Education level of Private Banks ...................... 209
Table B.6 Means and standard deviation of Education level of Public Banks ..................... 210
Table B.7 Mean and standard deviation of Spouses occupation and Family size level of
Private Banks ....................................................................................................................... 211
Table B.8 Mean and standard deviation of Spouses occupation and Family size level of
Public Banks ......................................................................................................................... 212

C. Questionnaire ............................................................................................................... 213
