ACKNOWLEDGEMENT

I should like to place on record a special word of thanks to two of my professors:

One is Dr. A. K. Chirappanath, my guide, for his personal care, timely suggestions, critical evaluation and creative guidance throughout this research work.

The other person I owe a great deal of gratitude to is the late Prof. K. J. Shah whose insightful method of teaching has been a fountain of inspiration for his students like me.

V. C. George S. J.
PLEASE NOTE:

(1) The spelling of words in this thesis is according to the Spell Check in the computer and is therefore American.

(2) Regarding the References small numbers are used instead of the usual superscript or subscript.

(3) In the case of Sanskrit words, Diacritical marks are not employed as they are not available in the computer used.
