CONTENTS

CHAPTER - 1
GENERAL INTRODUCTION

1. Heavy metals - 1
   a) Copper - 3
   b) Mercury - 3
   c) Zinc - 5
2. Biological Monitoring of Pollution - 5
   a) Indicator Species - 7
   b) The Indian mussel P.viridis - 8
3. Scope of the study - 10
4. Objectives of the study - 10

CHAPTER - 2
PHYSIOLOGY OF GREEN MUSSEL PERNA VIRIDIS (LINNAEUS)

1. Introduction - 12
2. Materials and Methods - 14
   a) Measurement of oxygen consumption - 15
   b) Measurement of ammonia excretion - 16
   c) Measurement of filtration rate - 16
   d) Measurement of body condition index - 17
   e) Data analysis - 18
3. Results - 19
   a) Oxygen consumption (VO₂) - 19
   b) Ammonia excretion (VNH₄-N) - 19
   c) Oxygen to nitrogen ratio (O:N) - 19
   d) Filtration rate (VF) - 20
   e) Body Condition Index (BCI) - 20
4. Discussion - 20
CHAPTER 3
ACUTE TOXICITY OF COPPER, MERCURY AND ZINC

1. Introduction

2. Materials and Methods
   a) Test containers
   b) Test solutions
   c) Bioassay for LC50 determination
   d) Bioassay for EC50 determination
   e) Data analysis

3. Results
   a) Behavioural responses
   b) Median lethal concentrations (LC50)
   c) Median effective concentration (EC50)

4. Discussion

CHAPTER 4
BIOACCUMULATION OF COPPER, MERCURY AND ZINC

1. Introduction

2. Materials and Methods
   a) Experimental procedure
   b) Digestion procedure for Cu and Zn
   c) Digestion procedure for Hg
   d) Instrumental determination of metals
   e) Data analysis.

3. Results
   a) Distribution of metals in different body parts
   b) Rate of metal accumulation in $3 \times 10^{-3}$ salinity
   c) Bio-concentration factor (BCF) in $3 \times 10^{-3}$ salinity
   d) Effect of salinity
   e) Effect of body size

4. Discussion
CHAPTER 8
CAROTENOID CONCENTRATION AS A BIOCHEMICAL INDEX OF HEAVY METAL STRESS

1. Introduction - 81

2. Materials and methods - 87
   a) Carotenoid content and toxicity tolerance - 87
   b) Carotenoid concentration as an index of stress - 88
      i) In different body parts
      ii) In long term Cu exposed mussels
      iii) Carotenoid concentration and oxygen consumption
   c) Measurement of oxygen consumption - 89
   d) Carotenoid extraction and estimation - 89

3. Results - 90
   a) Carotenoid content and toxicity tolerance - 91
   b) Carotenoid concentration as an index of stress - 91
      i) In different body parts
      ii) In long term Cu exposed mussels
      iii) In the whole body and oxygen consumption

4. Discussion - 93

SUMMARY & CONCLUSION - 100

REFERENCES - 105
