ACKNOWLEDGMENTS

On completing my thesis on Tissue Culture Studies of Butea frondosa and Artocarpus incisus, I would like to remember and thank all the persons and institutions from whom I have received help for my work.

First and foremost I owe my profound thanks and gratitude to Dr. L. D'Souza for his interest, guidance and encouragement during various phases of my research work.

A special debt of gratitude goes to Prof. K. M. Kaveriappa the Head of the Department of Applied Botany, Mangalore University, Prof. Dr. Abdul Rehman, Chairman and Head of the Department of Biosciences, Mangalore University for their support and encouragement; Dr. K. Nagaraj ex-Vice Chancellor and all the staff members of the Department of Botany, Gulbarga University who have always been a source of inspiration to me; Prof. Dr. Jagadish Chandra and Dr. S. N. Bhat, Dept of Botany, Manasagangotri, Dr. H. M. Shanta and Dr. Harinath Babu CCRI Balehonnur for helpful discussions; Dr. V. L. Venkataraman, Cell Culture Lab CFTRI, Mysore for advice and encouragement to work on Artocarpus; Members of the Department of Botany, St. Agnes College and St. Aloysius College for their suggestions and advice.

I sincerely thank the Department of Science and Technology (DST) New Delhi and the Mangalore Jesuit Education Society for financial support; Dr. J. C. Nelapaty, Principal St. Aloysius College for the facilities provided at the Laboratory of Applied Biology; The computer centre St. Aloysius College and its staff
especially Fr. Denzil Lobo and Mr. A. Gopalan for consultations; The libraries of CFTRI Mysore, CPCRI Kasaragod, IISc Bangalore and St. Aloysius College for permission to use their facilities for reference work and the library staff for their assistance.

My sincere thanks are due to Mr. Sebastian Pinto and Ms Loveena Lasrado for the mammoth task of feeding the manuscript to the computer; Ms Smitha Mallya for her assistance during the corrections, for being a good friend and a source of encouragement; Dr. K. V. Rao, Dr. Mariadas, Mr. Upendra P, Mrs and Mr V. T. Kulkarni for their unfailing encouragement and help; Mr S. S. Bosco, Mr. Kiran Hande and Miss Geetha for statistical advice, Mr. Jemmy D'Souza and Mr Joseph Alexander Y for their sincere technical assistance in the experimental work.

Finally I wish to express my deep gratitude to my late father Prof. R. N. Kulkarni, my mother and sister for their unfailing encouragement, advice and help.
