LIST OF TABLES

Table No.                                   Title                                            Page No.
1.1     Taluks and Villages selected for the study ......................................15
1.2     Total Schools from the selected areas...........................................16
4.1     Age of parents....................................................................................112
4.2     Educational levels of parents ..........................................................113
4.3     Occupation of parents ........................................................................114
4.4     Income of parents................................................................................115
4.5     Size of family......................................................................................116
4.6     Age of children.....................................................................................117
4.7     Gender of children ..............................................................................118
4.8     Need for buying toys............................................................................119
4.9     Identification of new toys by family members .....................................121
4.9.1   ANOVA- Identification of new toys and the size of the family ..................122
4.9.2   ANOVA- Identification of new toys by the family members and various income groups of parents ................123
4.10    Identification of new toys by children ................................................124
4.10.1  ANOVA- Identification of new toys and age groups of children .................124
4.11    Opinion of the children ......................................................................127
4.11.1  ANOVA- Opinion of the children and various age groups of parents ............127
4.11.2  Scheffe Multiple Comparison of opinion of the children and various age groups of parents ..................128
4.11.3  ANOVA- Opinion of the children and various income groups of parents ........129
4.12    Friend’s opinion .................................................................................130
4.12.1  ANOVA- Friend’s opinion and the various age groups of parents ................131
4.12.2  ANOVA- Friend’s opinion and various income group of parents ................131
4.13    Catalogues of Toys Company ..................................................................132
4.13.1  ANOVA- Catalogues and various age groups of parents ......................133
4.13.2  ANOVA- Catalogues and various income groups of parents ....................134
4.20:8 Multiple Regression - Influencing variables on soft toy purchases .................................................................169
4.20:9 Multiple Regression - Influencing variables on mechanical toy purchases .................................................................171
4.21 Independent t-test - Battery toy purchases by the parents and gender of children .............................................................173
4.22 Independent t-test - Educational toy purchases by the parents and gender of children .............................................................174
4.23 Independent t-test - Puzzle purchases by the parents and gender of children .................................................................175
4.24 Independent t-test - Doll purchases by the parents and gender of children .................................................................176
4.25 Independent t-test - Gift toy purchases by the parents and gender of children .................................................................177
4.26 Independent t-test - Construction toy purchases by the parents and gender of children .................................................................178
4.27 Independent t-test - Activity toy purchases by the parents and gender of children .................................................................179
4.28 Independent t-test - Soft toy purchases by the parents and gender of children .................................................................180
4.29 Independent t-test - Mechanical toy purchases by the parents and gender of children .................................................................181
4.30 Purchase habit ...................................................................................................................................................182
4.30:1 Education of parents and purchase habit-cross tabulation .................................................................183
4.30:2 Chi-Square - Purchase habit and education of parents .................................................................................................184
4.31 Retail outlets and purchase habit of parents - cross tabulation .................................................................................................185
4.31:1 Chi-Square - retail outlets and purchase habit of parents .................................................................................................187
4.32 Quality analysis of toys after purchase ......................................................................................................................189
4.32:1 ANOVA - Quality analysis of toys after purchase and education of parents .................................................................................................190
4.32:2 ANOVA - Quality of toys after purchase and family size .................................................................................................190
4.33 Determination of quality after the purchase by the family members .................................................................................................191
4.33:1 ANOVA - Quality of toys after purchase and family size .................................................................................................192
4.34 ANOVA - Battery toys and age groups of children .................................................................................................193
4.35 ANOVA - Educational toys and different age groups of children .................................................................................................194
4.36 ANOVA - Puzzles and different age groups of children .................................................................................................194
4.37 ANOVA - Dolls and different age groups of children .................................................................................................195
4.38 ANOVA- Gift and different age groups of children ...............196
4.39 ANOVA- Construction toys and different age groups of children ........................................................................196
4.40 ANOVA- Activity toys and different age groups of children ........................................................................197
4.41 ANOVA- Soft toys and different age groups of children ........198
4.42 ANOVA- Mechanical toys and different age groups of children ........................................................................198
4.43 Gender of children .................................................................200
4.44 Spending pocket money for toys............................................201
4.44:1 Independent t-test -Spending of pocket money of children and gender.................................................................202
4.45 Friends’ opinion .....................................................................203
4.45:1 Independent t-test -Influence of friends’ opinion and gender of children ................................................................204
4.46 Catalogues ..............................................................................205
4.46:1 Independent t-test -Influence of catalogues and gender of children ........................................................................206
4.47 Television ................................................................................207
4.47:1 Independent t-test -Influence of television advertisements and gender of children ........................................................208
4.48 Hoardings ..............................................................................209
4.48:1 Independent t-test -Influence of hoardings and gender of children ........................................................................210
4.49 Shop display ...........................................................................211
4.49:1 Independent t-test -Shop display and gender of children........212
4.50 Internet browsing .....................................................................213
4.50:1 Independent t-test-Internet browsing and gender of children ........................................................................214
4.51 Knowledge ..............................................................................215
4.52 Pleasure ..................................................................................216
