ACKNOWLEDGEMENT
ACKNOWLEDGEMENTS

The most pleasant duty in a work like this is to remember and record the contributions of all those, without whom the preparation of this thesis would never have been possible.

It is with immense pleasure that I express my deepest sense of gratitude to my reverend teacher and guide Dr. B.C. Joshi, M.D., D.A., Professor and Head, Dept. of Anaesthesiology, M.L.B. Medical College, Jhansi, under whose able supervision and in-Valuable guidance the present work has been carried out. I find words grossly inadequate to express my indebtedness for his benevolence.

I am fortunate to have Dr. S. Kumar, M.D., Lecturer & Dr. F.C. Srivastava, M.D., Lecturer as my co-supervisors, under whose able guidance and encouragement this work could be completed.

I wish to express my sincere gratefulness to all my respective teachers in the department, and friends who extended their help and guidance for making this thesis a reality.
I will fail in my duty, if I do not thank Dr. Anil Agarwal for participating so effectively in this venture.

In the last, but not the least I am sincerely grateful to Mr. B.P. Tiwari, Typist who has done a great job by bringing out this work in black and white neatly and correctly.
