ACKNOWLEDGEMENTS

It is truly wonderful to think back and remember the support, motivation and encouragement I received through this long yet very fulfilling journey of the past three and a half years.

My profound gratitude to God. It is only You who truly makes me believe in myself and pursue my dreams. This work is truly one fruit of my faith in You. Thank You always for the wisdom and perseverance You continue to bestow on me.

To my parents, Anthony and Damaciana. The biggest Thank You. Your love provided my inspiration and was my driving force. I owe you everything. I hope that this work makes you both proud. My dada, who dreamt this dream for me, always had the unwavering belief that I could achieve this. He met his demise while I was in the mid of this research. It is to him, I totally dedicate this work. My mother’s motherly care, concern and support is the most incredible thing I could ever receive all the years of my life. For being the strongest pillar always, I thank you Mummy.

From the formative stages of this thesis, to the final submission, my heartfelt gratitude to my Guide, Dr. Harbans Lal Kaila, who provided encouraging feedback. It is no easy task reviewing a thesis and I am grateful for his thoughtful and detailed comments. Thank you Sir, for helping to shape and guide the direction of the work with your careful and instructive comments. I have been
amazingly fortunate to have a guide who gave me the freedom to explore on my
own, and at the same time provided the guidance when required.

My gratitude and appreciation to Dr. (Fr) Walter de Sa, Principal, St. Xavier’s
College, Mapusa, Goa, for your trust in me completing this research. For your
understanding, encouragement and constant support through this research work, I
thank you.

Dr. Suhas Shetgovekar has been my best teacher ever. It was her provoking and
certainty in me that made me lay my steps in research. Thank you Ma’am for
showing me through your own enthusiasm that teaching and research could be
engaging, challenging, creative and fun! I still think fondly of my time with you
Ma’am as a student and a colleague. Your enthusiasm and love for teaching and
research is truly contagious.

My gratitude to Dr. Purandhare, HOD, Department of P.G.S.R., S.N.D.T.
Women’s University, Churchgate campus, for her kind assistance and support.

I would like to extend my special thanks to all respondents in this study for their
willingness to spend their valuable time, sincere cooperation and patience in
taking part to fill and answer all the questionnaires.

My gratitude to the examiners/PhD referees for accepting to examine this
research work and any feedback that they would provide to enhance it.

A big thank you to Kshipra, my friend and colleague. We started on this journey together and are about to complete it together too. Totally loved the fun and learning we have had as we moved through our own research assignments together. I will never forget our wonderful trips to Bombay and the fun times we had all through. Thank you Kshipra for being one of the most wonderful part of this journey.

Mark is my cousin who though younger to me has thought me the value of persistence and hardwork. Thank you Marki for your concern, assistance and making time to specially help us always. I am very proud of your growth and success.

Thank you to my brother Ted and sister-in-law Lucrecia for tolerating me and the busy self I have been in the past few months. My deepest gratitude goes to my family for their unflagging love and support throughout my life.

A special Thank You to Gary, my sweetest buddy. You simply amaze me; you have one of the most compassionate and gentle hearts I have had the pleasure of spending time with. Thank you for being there, for the chats and laughs. And most importantly, thank you for the instant response to my ‘Listen Boyee...’.

To my most adorable friends, Leeann, Caroline, Aaron, Murren, Olaf, Danica, Lloyd, Schuberta, Alina, Ramiro, Joey, Sonia, Manisha, Ruby, Debbie. No amount of time, distance, stages of life, or new relationships could ever change the bond we share. I can say so because we have been through those challenges and we do find ways to always reconnect when things have been out of touch. We make an “effortless effort” to remain friends always.
My pets, my dogs, are my best support always. Their presence to play with them, to hug them, cuddle them and receive the unconditional love in return is most valuable to me. Love them truly.

I regret if I have mistakenly missed anybody. I appreciate your contribution to this piece of my effort.

God bless you always.

Ms. Tina D’Cunha
