Acknowledgements

By the grace of God, on successfully completion of thesis work, I take the opportunity & privilege to express my gratitude and veneration to all the people who helped me during the course of my research work.

This research work would not have seen the light of the day without the consistent support and encouragement of both of my supervisor’s Prof. Sudhir Kumar Sopory, Plant Molecular Biology Group, ICGEB, New Delhi and Dr. Renu Deswal, Department of Botany, University of Delhi, Delhi. Both have always been a constant source of inspiration and working under their guidance has been an enriching experience for me.

I express my gratitude to Prof. S. C. Bhatla, Head, Department of Botany, University of Delhi, and former Head Prof. I. Usha Rao, for providing me an opportunity to work in Department of Botany, University of Delhi. Their support at various stages in these past years is duly acknowledged.

I also express my gratitude to Director, ICGEB, New Delhi Prof. V. S. Chauhan, for providing me an opportunity to work in a place like ICGEB.

I am extremely grateful to our group leader Dr. N. Tuteja. His encouragement and guidance has helped me to progress through my Ph.D. thesis work.

I am indebted to Dr. M. K. Reddy and Dr. Suresh Nair for their support and help in providing the critical insights and technical details in various molecular biology techniques which have been really helpful in the execution of my work with confidence. Their advice and insight have been of great value to me throughout my studies.

I am thankful to Dr. S. K. Mukherjee, Dr. N. R. Choudhury, Dr. Snehlata Singla-Pareek, Dr. Neeti Sanan-Mishra who were most supportive and helpful at each and every stage of my studies towards Ph.D. program.

I would like to express my gratitude to Prof. B. C. Tripathy, School of Life Sciences, Jawaharlal Nehru University, New Delhi for introducing me into the world of
molecular biology. I am thankful to him for being extremely supportive during the three years which I was with him. Without his support I could not have got the opportunity to pursue my Ph.D. study in an organization like ICGEB, New Delhi and University of Delhi.

I am extremely thankful to Prof. Natasha V. Raikhel, Center for Plant Cell Biology and Department of Botany and Plant Sciences, University of California, Riverside for providing me Sortin1 as a kind gift.

Heartfelt thanks goes to Dr. Budhi Sagar Tiwari, School of Life Sciences, Jawaharlal Nehru University, New Delhi for his tremendous help in various aspects of my research and also personal life.

Heartfelt thanks goes to Dr. Malaya Kumar Sahoo, School of Medicine, Stanford University for his tremendous help by guiding the uses of different computer software’s and also personal life.

I am delighted to express my sincere affection towards my Lab colleagues, Dr. Rekha, Dr. Pradipto, Dr. Sheevani, Shweta, Charanpreet for their help. I am really grateful to my PMB group colleagues Dr. Tanushree, Dr. Amita, Dr. Anil, Dr. Wahid, Dr. Ananda, Dr. Brajesh, Dr. Sudhakar, Dr. Mallikarjun, Srikrisna, Ritesh, Thilini, Indu, Visal, Jyoti, Preeti, Amit, Ajit, Chandrasekhar, Jitender, Prachi, Akruti, Subramaniam, Deepak, Sudhansu and many others for their help and support.

I am also delighted to express my sincere affection towards my Department of Botany, University of Delhi’s lab colleagues Dr. Jasmeet, Ravi, Ankita, Prakriti, Shruti for their help and support.

I am thankful to my School of Life Sciences, Jawaharlal Nehru University’s lab colleagues Dr. Rupesh, Dr. Ansuman, Dr. Siddhartha, Dr. Satpal, Shiv, Vijay for providing wonderful time and extremely help.

I am thankful to Sharma Sir, Dr. Gajendra and Mr. Sandeep AIRF, JNU for their immense help and co-operation during TEM and ion measurement work.
I thank Preeti and Chandan for taking care of our ordering and arranging chemicals, reagents for us. I sincerely acknowledge the help and support provided by Pan Singh, Dinesh during my day-to-day lab work.

Thanks are due to Ramesh Sharma and Rajib Som for their help rendered in maintaining plants in the greenhouse.

I am thankful to Jobi and John for their magic power to repair any instrument which went out of order during my work. I thank all administrative members of ICGEB for their invaluable help and for providing various facilities.

I sincerely acknowledge Department of Biotechnology, Govt. of India, for providing financial assistance without which this work wouldn’t have seen the light of day.

I want to express my heartiest gratitude and acknowledgement to my beloved family. They have always taken all the pains to provide me with the best through my life. I have reached this position today only because of them.

There are numerous friends and relatives whose name I might have missed; also have provided a patient ear, advice and encouragement during my Ph.D studies.

The chain of my gratitude would be definitely incomplete if I would forget to thank the first cause of this chain, The Almighty, The Prime Mover, whom I have great faith in and by whose blessings I have been able to reach this milestone. I pray to him to bless me always and enlighten me towards the path of a meaningful and successful life, not only as a good scientist but also as a good human being.

Manas
