4.11 Factor loadings for dimension four Workload 117

4.12 Factor loadings for dimension five Curriculum 118

4.13 Factor loadings for dimension six Student-parent relationship 119

4.14 Factor loadings for dimension seven Evaluation 119

4.15 Factor loadings for dimension eight Future career 120

4.16 Factor loadings for dimension nine Political intervention 120

4.17 Factor loadings for dimension ten Student-peer group relation-ship 121

4.18 Factor loadings for dimension eleven Economic factors 121

4.19 Factor loadings for dimension twelve Physique 122

4.20 Stress percentile norms 124

4.21 Factor loadings for dimension one Psychological reactions 126

4.22 Factor loadings for dimension two Physiological reactions 126

4.23 Factor loadings for dimension three Behavioural reactions 127
4.24 Reaction percentile norms

4.25 Factor loadings for dimension one
Mal adjusted behaviour

4.26 Factor loadings for dimension two
Improving physical and mental health

4.27 Factor loadings for dimension three
Engage in meaningful work

4.28 Factor loadings for dimension four
Anti-social activities

4.29 Stress management percentile norms

4.30 Factor loadings for dimension one
Time perception

4.31 Factor loadings for dimension two
Personal disorganisation

4.32 Factor loadings for dimension three
Planning and setting priorities

4.33 Factor loadings for dimension four
Time utilisation

4.34 Time management percentile norms

5.1 Mean, Standard Deviation and
Percentage scores of different dimensions of stress

5.2 Distribution of stress levels for
dimensions of stress
5.3 Distribution of stress levels of college students 150

5.4 Dimensionwise distribution of stress experience of male and female students 152

5.5 Dimensionwise distribution and area wise distribution of stress 154

5.6 Mean, Standard Deviation and 't' values of science and arts students 156

5.7 Dimensionwise distribution of stress dimensions Showing Mean, Standard Deviation and 't' Values of private and government college students 158

5.8 Mean, Standard Deviation and percentage scores of college students stress reactions when they experience stress 160

5.9 Distribution of stress reactions levels for different dimensions of stress reactions 161

5.10 Distribution of stress reaction levels of college students 162

5.11 Dimension wise distribution showing Mean, Standard Deviation and 't' values of stress reaction 163

5.12 Mean, Standard Deviation and 't' values of stress reactions of urban and rural college students 164
5.13 Mean, Standard Deviation and 't' values of science and art students stress reactions when they experience stress

5.14 Dimensionwise distribution showing Mean, Standard Deviation and 't' values of stress reactions of private and government college students

5.15 Mean Standard Deviation and percentage scores of different dimensions of stress management strategies

5.16 Distribution of levels of stress management strategies of college students

5.17 Distribution of stress management levels of college students

5.18 Dimensionwise distribution showing Mean Standard Deviation and 't' values of stress management strategies of male and female students

5.19 Mean Standard Deviation and 't' values of stress management strategies of urban and rural college students

5.20 Mean, Standard Deviation and 't' values of Stress management strategies of urban and rural students

5.21 Dimension wise distribution of stress management strategies of private and government college students
5.22 Mean, Standard Deviation and percentage of scores of various dimensions of Time management practices 175

5.23 Distribution of Time management practices of college students 176

5.24 Distribution of Time management practices of college students 177

5.25 Mean Standard Deviation and Percentage scores of various dimensions of Time management practices of male and female 178

5.26 Mean Standard Deviation and 't' values of urban and rural students Time management strategies 179

5.27 Mean, Standard Deviation and 't' values of science and arts students Time management strategies 180

5.28 Dimension wise Distribution of Time management practices of private and government college students 182

5.29 Table of 'r' Values showing the relationship between stress and time management 183

5.30 Table of 'r' values showing the relationship between stress and stress reactions experienced by the students 184

5.31 Table of 'r' values showing the relationship between stress and stress management strategies of college students 187

5.32 Table of 'r' Values Showing the relationship between time management and stress management strategies 189
