ACKNOWLEDGEMENTS

Satisfaction and euphoria that a student has in the successful completion of any task would be incomplete without the mention of people who made it possible and whose constant guidance and encouragement served as a beacon of light and crowned the effort with success. It is now my great pleasure to take this opportunity to thank all those who inspired me in the completion of this work.

I would like to extend my heartfelt gratitude to my Supervisor, Prof. Shashi B. Babbar for his supervision, valuable advice; guidance and constructive criticism that made it possible to complete this work. He always encouraged me to exploit my scientific abilities.

I express my cordial thanks to Prof. S.C. Bhatla, Head, Department of Botany, for providing the necessary facilities to carry out this research work. I also thank Prof. A.K. Bhatnagar and Prof. I.U. Rao for the same during their respective tenures as Head of the Department.

I express my fervent sense of thankfulness to Professor Akhilesh K. Tyagi, National Institute of Plant Genome Research, New Delhi and Dr. Saurabh Raguvanshi, Department of Plant Molecular Biology, University of Delhi South Campus for their encouragement and help in various ways.

Kind help of Drs. Saloni Raghuvanshi, Shailendra Vyas, Pragya Sharma, Ratnakaran and Rahul Kumar are greatfully acknowledged.

I sincerely thank all the teachers of the Department of Botany, especially, Prof. A.K. Pandey and Dr. Shailendra Goel for their valuable advice and Dr. Rajesh Tandon, Dr. Rupam Kapoor for their support and constant encouragement during the course of this work. I also thank Dr. Sadhana Babbar for her moral support and affection. Special thanks to my school and college teachers for inculcating scientific aptitude in me.

I am grateful to Mr. U.C. Pradhan (Kalimpong, West Bengal), Dr. Pankaj Kumar and Dr. Jeevan Singh Jalal (Wild Life Institute of India, Dehradun), Prof. S.R. Yadav (Shivaji University, Kolhapur), Dr. C. Sathish Kumar (TBGRI, Thiruvanathapuram), Dr. B. K. Sinha (BSI, Shillong) and Prof. S. Rama Rao (NEHU,
Shillong, Meghalaya) for their help in collection, procurement and/or identification of the plants.

My special thanks are due to Shri S. K. Dass for his expert photography of the some of the research materials.

I gratefully acknowledge the award of Junior and Senior Research Fellowships from a research project sanctioned to my supervisor by the Department of Biotechnology, New Delhi and University Grants Commission, New Delhi. This work was also supported by the Research and Development grants provided to Prof. S. B. Babbar by the University of Delhi.

I greatly appreciate the help and cooperation provided to me by my seniors, Drs. Ruchi Jain, Anupam Raina, Amandeep Kaur and Charu Kalra; and laboratory colleagues, Ruchitra, Gangotri, Lemis, Marina, Saloni, Deepak, Samvedna and Deepshikha. Special thanks to my friends Ashima and Hemant for making my stay in laboratory a beautiful and cherished experience. They constantly appraised my work and provided best possible suggestions and help regarding my work.

I would like to thank Mr. Naresh Giri and Mr. Rakesh Giri for their help and assistance in the laboratory work. I also thank the technical and non-teaching staff of the Department for their cooperation.

True friends are rare and I feel lucky to find myself in that side of plot. I would like to thank my friends Manish, Jasmeet di, Niti, Deepika, Shashi, Sachin, Vibhuti, Vinay, Ashutosh, Priyanka, Maha di, Pratibha di, Garima di and Vijay sir for their help and support throughout this period.

Special thanks go to my dearest friends Shilpi, Amrita and Sumbul for being there to walk beside me at times of need with their unending kind and relentless cooperation. I will always cherish the beautiful and fun moments spend with you all.

I am greatly indebted to my caring and loving sisters, Adila and Bushra for their continuous and unconditional support of all my undertakings, scholastic and otherwise. They never spared an occasion to remind me for working hard and finishing the thesis. They are the loveliest companions. Esa, Hamid and Rubaiya are like fresh breath of air, their presence at home invigorates my mental tiredness.

Nothing would have been possible without the unending care and support of my parents. They have always been an inspiration for me. Thanks Papa for being a
great father, for showing me the right path and for making me what I am today. I can
never forget the care, love and teachings of my mother. She has inculcated in me an
inner strength and will power to go ahead and helped to finish this work. She always
taught me to fulfil my dreams and give more than hundred percent in everything I do.
Moral support given by my all family members is acknowledged.

Above all I want to thank almighty ‘Allah’, the omnipresent and omniscient,
who has been with me throughout and His perpetuity around me made the completion
of this thesis a possible task.

Iffat Parveen
