LIST OF FIGURES

Figure 1. US GDP 2013; “The World Bank,” 2015 ................................................. 2
Figure 2. India GDP 2013; “The World Bank,” 2015 ................................................. 2
Figure 3. Gaps Model of Service Quality- PZB 85; Parasuraman et al., 1985 ........ 5
Figure 4. Service to Profit Chain; Heskett et al., 1994 .............................................. 7
Figure 5. Service Gaps Model – Path Diagram .......................................................... 15
Figure 6. Dynamic Relationship Quality: Acts–Episodes–Sequences–Relationship.. 20
Figure 7. "Service quality" Literature Frequency Distribution; “Scopus,” 2015 .......... 25
Figure 8. Disconfirmation Theory; Grönroos, 1984 ................................................. 31
Figure 9. SERVQUAL-PZB 88 Measurement Technique; Parasuraman et al., 1988 33
Figure 10. SERVQUAL-PBZ 91 Measurement Technique Parasuraman et al., 1991 35
Figure 11. SERVPERF Measurement Technique; Cronin & Taylor, 1992 .......... 36
Figure 12. INTSERVQUAL; Frost & Kumar, 2000 ............................................... 39
Figure 13. Seven Gaps Model; Luk & Layton, 2002 .................................................. 40
Figure 14. Fourteen Service Gap Model; Candido & Morris, 2000 ......................... 42
Figure 15. Fourteen Gaps Model; Shahin & Samea, 2010 ....................................... 43
Figure 16. First Order Factor Structure – SERVQUAL (Parasuraman et al., 1988) and SERVPERF (Cronin, & Taylor, 1992) ...................................................... 45
Figure 17. Second Order Factor Structure – RSQS; Dabholkar et al., 1996 .......... 45
Figure 18. Second Order Factor Structure; Brady & Cronin, 2001 ......................... 46
Figure 19. Total Quality; Grönroos, 2007 ............................................................... 47
Figure 20. Customer Perceived Service Quality; Sureshchandar et al., 2001 .... 47
Figure 21. Service Template Approach; Williams & Saunders, 2006 ................. 48
Figure 22. Purchase Department Service Quality; Large & König, 2009 ............ 50
Figure 23. Extended Service Gaps Model; Zeithaml et al., 1988 ......................... 54
Figure 24. Knowledge Gap; V. A. Zeithaml et al., 2008 ....................................... 55
Figure 25. Design Gap; V. A. Zeithaml et al., 2008 .............................................. 56
Figure 26. Delivery Gap; V. A. Zeithaml et al., 2008 ............................................ 57
Figure 27. Communication Gap; V. A. Zeithaml et al., 2008 ............................ 58
Figure 28. Zone of Tolerance – Customer Expectations; Zeithaml et al., 1993 .. 59
Figure 29. Dimensions of Customer Perception; V. A. Zeithaml et al., 2008 .... 60
Figure 30. Customer Perception – Satisfaction – Loyalty; Zeithaml et al., 2008 ... 61
Figure 31. Traditional SQ – CS Relationship; Parasuraman et al., 1985 ............ 64
Figure 32. Kano's Two Dimensional SQ – CS Relationship; Kano et al., 1984 ........64
Figure 33. Customer Experience Quality; Lemke et al., 2011 ..................................66
Figure 34. Service Triangle; Parasuraman & Grewal, 2000 ...........................................70
Figure 35. Integrated Quality Framework; Golder et al., 2012 ........................................72
Figure 36. Value Co-creation; Grönroos, 2012 .................................................................73
Figure 37. Hypothesized Research Model .................................................................90
Figure 38. Service Gap Measurement Technique for the Study ........................................96
Figure 39. Research Model with Indicator Variables ..................................................106
Figure 40. Service Blueprint, Line of Interaction, Visibility, & Internal Interaction 108
Figure 41. Scale Validity & Reliability ................................................................................109
Figure 42. Data Analysis Flowchart ..................................................................................121
Figure 43. Initial Confirmatory Factor Analysis (CFA) Model ...........................................140
Figure 44. Final CFA Model after Modifications .............................................................142
Figure 45. Initial Structural Equation Model (SEM) ........................................................148
Figure 46. Final SEM after Modifications ..........................................................................153
Figure 47. Standardized Regression Weights and Squared Multiple Correlations ..155
Figure 48. Mediation Analysis: Communication Gap ....................................................156
Figure 49. Mediation Analysis: Delivery Gap .................................................................157
Figure 50. Service Gaps Median Analysis ........................................................................163
