Acknowledgement

The Supervisor (Guru) is the main source of guidance and being a Research Scholar (Shishya) I felt so humble and unable to give Gurudakshina to my Guide and Supervisor, most respectful Dr. M.C. Kanchan. He has helped me and encouraged me with his soothing words and explanations at every step. It was due to his constant guidance and keen interest that I could complete my work and it came out in the presentable form. I am highly indebted and wish to express my heartfelt gratitude to him.

I feel obliged and am thankful to Dr. U.P. Singh Principal, Bipin Bihari P.G. College for his valuable suggestions and providing all the Laboratory facilities.

I express my sincere thanks to Dr. R.K. Agrawal (Microbiology Department) Medical college for providing his valuable time. I am also thankful to Dr. Ashok Agrawal (co-ord. Industrial Microbiology B.S.A. College Mathura) and Dr. B.D. Kaushik (HOD, Div. of Microbiology IARI, New Delhi) for sparing some time from their’s so valuable and allowing me to consult the library for appropriate literature.
Parents also contributed to the completion of work though indirectly. I am thankful to my parents Mr. and Mrs. M.Y. Deshmukh who at every step kept on boosting me and giving personal care for my child so that I could work freely. I also thankful to my inlaws Mr. and Mrs. Gupta.

Continuous perseverance co-operation and encouragement of my husband Mr. Anil Agrawal is unaccountable. Infact his help at every step was very precious. My sincere thanks to his friends Mr. Ashish Sahu, Mr. K.D. Gupta and Mr. Sanjay Shivani for co-operating with him as well as being so helpful to us.

Last but not the least I am grateful to all the teachers of Department and friends and fellow research scholars who also helped me during the compilation of my work.

Above all a sincere thanks to my tiny tot, 4 years old sweet son 'Ishu' who co-operated with me right from 1 years of age till now.

Thanks to the Almighty who is the key source of Enlightenment.

Manisha Agrawal Deshmukh.
