ACKNOWLEDGEMENT

God is dependably with us, above us to favor, underneath us to bolster, before us to guide, behind us to secure, other than us to comfort and inside us to manage. Firstly, I might want to say thanks to God for showering his endowments upon me by giving me this chance to exceed expectations further stride in life and great family, companion, instructors and well-wishers.

"A solitary star can't make wonderful gleaming sky at night", same way examination work can never be result of solitary singular's ability or endeavors. Amid my excursion from goal to objective, I have encountered shower of gifts, direction and motivation from numerous individuals. It gives me enormous delight to pass on my appreciation to each one of individuals who specifically or by implication added to make this undertaking fruitful. In spite of fact that it's unrealistic to name and express gratitude toward every one of them independently, I must make extraordinary notice of percentage of persons and recognize my earnest clumsiness to them.

To begin with and for most I might want to thank my Love Dr. Keyur Patel for being there with me on every single stride to do obliged endeavors. I healthily need to express gratitude toward him for being my closest companion and in addition best Guide to handle every single discriminating circumstance of life.

Exploration has dependably been adventure not destination. Examination has broadened our vision, opened more current road and helped dull dark countenances of puzzling universe. As one
bloom makes no laurel, this examination work would not have procured as natural product without entire hearted consolation and association of my aide, educators, companions, family, and well wishers.
