ACKNOWLEDGEMENTS

Thank you Lord for helping and guiding me to complete the study, and thanks for all those wonderful people whom you gave me; God, your just too great ………thanks for answering my every prayer, not the way I wanted, but in the way that seemed was the best for me.

I would like to extend my sincere gratitude first and foremost to my guide and supervisor Dr. R. Krishnaraj for the valuable guidance, rich corrections and the endless help “one looks back with appreciation to the brilliant teachers, but with gratitude to those who touched one’s human feelings”. I am lost without words to rightly express my exhaustive feelings for “ALL” that you have imparted in me, knowledge, confidence and to rightly plan, program and execute each and every act of mine in terms of research.

I express my sincere gratitude to the Principals of Arts and Science Colleges affiliated to Bharathiar University, Coimbatore located at Erode, Tirupur, Nilgris and Coimbatore districts for permitting me to collect data from their teaching faculty. I acknowledge my special gratitude to the teachers of the above colleges of the academic year 2012-2013 for having given relevant data for the present study.

“Good life is guided by knowledge and inspired by love”

My dearest Husband, what do I have to say…..For what I’m today, I owe all to “you”. It’s the confidence, motivation, courage and strength that you have given me and the love and faith you have on me, has helped me thrive the troubled waters that I was in. You mean the world to me…. acknowledging you with the word thanks would be unappreciative.

Moorthy, you cleared my worries for not having a son. Thank you for all your support and effort which helped to thrive difficult situations. Without your significant help I wouldn’t have completed this study.

Chandan and Reenu, my lovable daughters, life would have been exhausted and nullified without you both. Thank you both for the continuous support, encouragement and painful efforts which helped me reach this level.

I offer my regards and heartfelt gratitude to all those who supported me in any respect for the completion of my dissertation.
