ACKNOWLEDGEMENT

It is my proud privilege to acknowledge the invaluable guidance of my research supervisor Dr. Neeraj Anand and Dr. Arvind Kumar Jain. I sincerely express my indebtedness and deep sense of gratitude to them for their guidance and suggestions, without which this research work would not have taken the direction and shape as presented in this thesis. I am very much thankful to both of them for their valuable time, which they spared for me from their extremely busy schedule. Working with them had truly been a privilege and pleasure as I have had many opportunities to learn and imbibe from them each day. Their guidance helped me in all the time of research and writing of thesis.

I am indebted to Dr. Krishna Kant Pandey and Dr. Tarun Dhingra for their fruitful suggestion for improving my work. They always provided me thoughtful suggestions, priceless critical comments and kind understanding throughout the doctoral journey.

I would like to thank all the FRC committee members for their valuable inputs and suggestions. I am sincerely indebted to the faculty members of CoMES for their support and constant encouragement.

I would like to thank library, IT department of UPES and all others who directly and indirectly helped me in conducting my research.
I am also thankful to all the respondents' consumers and mechanics of Delhi and New Delhi region without whom I could not realized my study. It is only because of their honest answer and helping nature, this research would have been possible.

Finally I don't have words to thank my father Mr. G.M. Srivastava, mother Mrs. Lilawati Srivastava, brother Mr. Gopal Srivastava, Sister Miss Neha Srivastava, brother in law Mr. Amit Srivastava and sister in law Miss Garima Srivastava for their continuous support and encouragement without which I would have never been able to complete the work on time. Last but not least my niece Anvi Srivastava and my nephew Vyom Srivastava.
