ACKNOWLEDGEMENT

I would like to express my deep sense of gratitude to my esteemed guide and Ph.D. supervisor Dr. Vivek Kumar Sharma, Professor at Jagan Nath University for giving me the opportunity to work on this topic. It would never be possible for me to take this thesis to this level without his innovative ideas and his relentless support. He always inspired me for this course of learning and provided a motivational environment for the research as well as for my life.

I am very much thankful to Prof. Y. S. Sisodia, Pro – Vice Chancellor at Jagan Nath University, Dr. Sandeep Kumar Poonia, and Dr. Meenu Dave without whom it would have been difficult to complete this dissertation. Their interesting discussion and incessant support helping me right the way through all the phases of the doctoral research work.

I am grateful to all faculty members and staff of the Jagannath University who have contributed their valuable suggestions and input for the research work and for providing necessary facilities.

I would like to express appreciation to all the people and my friends who are always there on my side at all times and directly or indirectly supported me.

Finally I express my very profound gratitude to my parents, wife Sumitra, and brother Kailash for providing me with unfailing support and continuous encouragement throughout my study and process of researching and writing this thesis. This accomplishment would not have possible without them. They are always on my side at all times. Thank you.
