The dialogue between the husband and wife

Husband

“I don’t care about the price. It’s not a big thing.” [Translation mine]

Wife

“My husband is really wise. He bought a Prestige Popular Pressure Cooker for me. It’s wide circumference makes it easier to cook.

Husband

“Of course! Even after coming back to home from office, who wants to see his wife struggling in the kitchen? Moreover, it has a uniquely think base! It is much stronger and durable too!”

Wife

“Three unique security aspects - unique Gasket Release System (GRS) gives me safety. And everything against a moderate price.

Husband

“I may get another Cooker, but will I get another wife I like? Tell me, should anyone bother about price when one thinks of true love?”

Caption

“After all, this is how an intelligent person thinks!”

31 May 1642, a Dutch explorer
Abel Tasman discovered a small
island south of Australia.
This beautiful island, with its
salubrious climate, lush valleys,
and clear waters came to be
known as Tasmania.
In the early 1800s, two
English Colonists, MacArthur
and Cox, brought in the Saxon
Merino sheep from the mainland
and the rest is history. Today, the
Saxon Merino are world
renowned for their fine wool and
the soft wool produced from it.
It is from this wool that
Raymond has woven a fabric
of such fineness that it takes
almost 64 km of yarn to make
just one suit.
A fabric fineness so superior
and so lightweight that it takes
a man of discerning taste to
enjoy it.
