ACKNOWLEDGEMENTS

With great pleasure I wish to express my profound sense of gratitude and indebtedness to my supervising teacher Prof. Dr. N. Ravindranatha Menon, Director, School of Marine Sciences, Cochin University of Science and Technology, whose constant encouragement was crucial to my progress in the field of Marine Biology. It is his valuable guidance, patience and the time he spent for the preparation of this thesis, that brought this investigation into the present form. I am also indebted to him for providing me with all the facilities of research in his department.

My thanks are due to Dr. Harsh K Gupta, leader, Third Indian Scientific expedition to Antarctica (1983-84) and Dr. K.J. Mathew, Scientist, CMFRI, Cochin for the collection of bryozoan specimens, which were utilised for my taxonomic investigations. My sincere thanks are also due to Dr. P.A. Thomas, Scientist, CMFRI, Trivandrum for providing samples of bryozoans from the waters of Maldives.

I wish to express my appreciation to Shri. Peter Koshy, Scientist, Regional Research Laboratory, Trivandrum, for his help in the preparation of the Scanning Electronmicrophotographs.

My unfeigned thanks to my friends, for their invaluable and unflinching help, co-operation and affection extended to me throughout the study. I also express my thanks to Smt. Sreekala Pillai, for her invaluable help at various stages of my work.
I have received utmost encouragement, love and appreciation from my husband, Mr. Harish Kumar. It is ineffable to record to my gratitude to him.

I thank the authorities of Cochin University of Science and Technology for awarding me a Junior Research Fellowship during the tenure of which the present work was carried out.

GEETHA. P.
