ACKNOWLEDGEMENT

It gives me immense pleasure to thank my respected supervisor Dr. M.D. Sharma, Professor, Department of Mathematics, Kurukshetra University, Kurukshetra, who have guided me all through the research work. Without his guidance, this work could not have been accomplished in the present form. Thus, this acknowledgment would be incomplete without owing this work to his utter cooperation, hard work and acquaintance to scientific knowledge in the field of the study. His guidance has imbiber in me the scientific knowledge to deal and rationalize every problem of life, not only the problems undertaken in the thesis.

I am sincerely thankful to Dr. Anil Vashisht, Chairman and Professor, Dr. Rajneesh Kumar, Ex-Chairman, Department of Mathematics, K. U. Kurukshetra for providing me all the necessary help, facilities and amenities for carrying out my research work. I am also thankful to all respected teachers of the department for their help and moral support.

I pay special thanks to my research colleague Dr. Manjeet Kumar for providing the required guidance. I also extend my thanks to my other colleagues Mr. Vijayant Kumar, Mr. Ashok Kumar and Ms. Hema Sukhija for their time to time encouragement.

Finally, I express my deepest gratitude to my parents and brothers for their timely encouragement and inspiration.

I deeply acknowledge the financial assistance by Council of Scientific and Industrial Research, New Delhi, India in the form of Senior Research Fellowship.
