

Acknowledgements

Each victory is gained with interdependence and a journey becomes easier when it is travelled together. It would not have been possible to write this doctoral thesis without the help and support of the kind people around me, to only some of whom it is possible to give particular mention here.

*I wish to express my profound sense of gratitude to the Former President of the University Late **Prof. Diwakar Shastri** and express my thanks to **Prof. Aditya Shastri**, Vice chancellor of Banasthali University and President of the University **Prof. Chitra Purohit** for extending their support. They provided important guidance during my first steps into proceeding for this research work,*

*I am highly indebted to **Prof. D. R. Phalswal**, H.O.D of Physics, for his valuable advice and great support. He gave me unconditional help during my difficult moments and **Dr. Saurabh Dalela** for the kindness he bestowed upon me.*

*I would like to record my gratitude to my supervisor **Dr. Parvej Ahmad Alvi**. This thesis would not have been possible without the help, support and patience of my principal supervisor. I would like to record my gratitude to him for supervision, advice, and guidance as well as giving me extraordinary experiences throughout the work. Above all and the most needed, he provided me unflinching encouragement and support in various ways.*

*I also benefited by outstanding help from the technical **staff of Physics** department that provided the necessary support for this research. The library facilities (notably the Celtic collection) and computer facilities of the University, as well as the **Central Library** of Banasthali, have been indispensable.*

*I also thank the staff of **Sr. Sec. School, Banasthali**, for their support and assistance. Collective and individual acknowledgments are also owed to **my colleagues**, whose*

presence has been somehow perpetually refreshing, helpful, and memorable. I convey special acknowledgement to **Surendra Kumawat** for his indispensable help.

Where would I be without my family? Above all, I would like to thank **my dear hubby Sh. Kapil Gupta** for his personal support and great patience at all times. He deserves special mention for his inseparable support and prayers.

My parents, **Sh. Kalyan Prasad Gupta & Smt. Sarla Gupta** in the first place are the persons who laid the foundation of my learning character, showing me the joy of intellectual pursuit ever since I was a child.

No word would suffice to express what I owe to my in-laws, **Sh. Vinod Kumar Gupta & Smt. Neena Gupta** who have always been reinforcing my task with good wishes and encouraging attitude.

Words fail me to express my appreciation to my lovely sons **Pulkit and Saarthak** whose love and persistent confidence in me, has taken the load off my shoulder. They have given me their unequivocal support and patience throughout, as always, for which my mere expression of thanks likewise does not suffice.

I would also acknowledge my **Research Colleagues & Friends** especially **P. L. Janghir & Rashmi Yadav** for their advice and their willingness to share their bright thoughts with me, which was very fruitful for shaping up my ideas and research.

Finally, I would like to thank everybody who was important to the successful realization of thesis, as well as expressing my apology that I could not mention them personally one by one. For any errors or inadequacies that may remain in this work, of course, the responsibility is entirely my own.

Sapna Gupta
