I would like to express my heartiest and deep sense of gratitude to my research guide Dr. Narendra Nath Sharma, Rtd. Professor and Head of the Department of Library and Information Science, Gauhati University for his support, scholarly guidance, encouragement and help during the course of this study. I feel it a profound privilege to work under his guidance. I consider myself to be fortunate enough to have acquainted myself with such a scholarly person. I am as such highly grateful to him for giving me plenty of time with valuable suggestions without which it would have been impossible for me to complete the work. I shall ever remain grateful to him.

It is very difficult to express in words my gratitude to all my respected teachers, especially Prof. Narendra Lahkar, Prof. Rajani Kanta Barman, Prof. Sanjay Kumar Singh, Dr. Tilak Hazarika, Dr. Dipen Deka and Dr. Badan Barman, all from the Department of Library and Information Science, Gauhati University for their cooperation and helpful suggestions at different stages of this research work. I also gratefully acknowledge the help of all the respondents who were courteous enough to complete the questionnaire. Without their participation, it would have been very difficult to complete the study.

During the research work, I have had the opportunities to discuss the topic with different personalities who were interested in my research work. They spared their valuable time to discuss different issues. Their valuable suggestions and advices helped me a lot in carrying out my research work.
A research work cannot be carried out in isolation. Many professional friends have helped me in various stages of the work. I wish to express my sincere thanks to my sister Barnali Duarah, brother Manab Jyoti Duarah, my friends and brothers especially, Prasanta Kumar Deka, Latifur Alom Ahmed, Sankar Sarkar, Mridul Das, Partha Pratim Sarma and Gautam Kumar Sarma for their help in providing copies of articles, books, journals and information sources from various sources.

I shall be failing in my duty if I fail to record deep appreciation of my parents, my in-laws, my husband Dr. Gouri Sankar Karmakar and my daughter Miss Brinda who were always bearing my indulgence with smiling faces and continuous encouragement in preparing this thesis. While carrying out the research, I was fortunate to come across a good number of friends, well wishers and relatives. I cannot forget their names who have inspired and encouraged me for the completion of the work in its various processes. Really speaking, their constant reminders to my work by them have hastened the work for its completion. I take the opportunity of offering my sincere thanks and gratitude for their encouragement. I wish the almighty bless them all.

Last but not the least, I express my sincere thanks to Gauhati University authority for allowing me to take up the research work.
