List of Abbreviations and Note on Primary Sources

All parenthetical documentation of sources follow the MLA style; the name of the author is followed by page number; in case of more works by the same author, the title of the work quoted either in full or in short is followed by page number.

All citations of Stevens' poems are from The Collected Poems (CP). The poems not included in Collected Poems are cited from Opus Posthumous (OP). Stevens' letters, unless otherwise specified, are cited from Holly Stevens' edition (Letters). For information about specific words used in Stevens' poems, I have relied on The Oxford English Dictionary (OED).

Citations from Lacan are to his Écrits and to his Seminars. Except Seminar VI ("Desire"), all other seminars are referred to by the word 'Seminar' followed by Roman numeral designating the number of the Seminar.
